
INDEX

PROCEEDINGS OF THE ROYAL SOCIETY OF MEDICINE, VOL. XX, 1926-27

INDEX

VOL. XX, 1926-27

Note.—In this volume two series of numbers are used for pagination, one being the sectional page number and the other the volume page number. The latter only is used in the Index. It is hoped that this change will help readers when using the bound volumes.

- Abel, A. Lawrence.**—Discussion on treatment of cancer of œsophagus, 248
- Abdominal** discomfort in diverticulitis, 665
 hernia in the Army, 501
 hernia in the Royal Navy (H. E. R. Stephens), 493-499
 lymphogranulomatosis maligna (Hodgkin's disease) with very high blood-eosinophilia (F. Parkes Weber), 1337
 tuberculosis, see *Tuberculosis, abdominal*
 tumour (F. D. Saner), 194
- Abortion**, contagious, in cows, in relation to milk, 784
- Abrahams, A.**—Discussion on diagnosis and treatment of colitis, 377
- Abscess**, bronchiectatic, treatment of, 733
 interdural, circumscribed, formation of, at site of saccus endolymphaticus, 1868-1871
 of lung, simple, chronic, treatment of, 731, 732
 pulmonary, caused by inhalation of foreign body, 744
- Accessory** sinuses of nose, relation of nasal polypi to (T. B. Layton), 1745-1748
- Achalasia** of cardia, specimen of, 1384, 1386
 case of (M. Cassidy), 1044
- Acholuric** family jaundice (K. H. Tallerman), 1582
- Acidosis**, meaning of term discussed, 309
 odour of breath in subjects of, 316
- Aclasia**, diaphyseal, with ulnar nerve weakness (N. L. Eckhoff), 195
- Acne** agminata, case of (G. B. Dowling), 1828
- Acrocyanosis**, cases of (L. S. T. Burrell), 327 (K. R. Hay), 195
- Acrodynia** and rickets (S. Wyard), 322
- Acromegaloid** features, slight, syringomyelia with, case of (F. Parkes Weber and F. E. Loewy), 7
- Acromegaly** of (?) traumatic origin, with proliferative changes in interphalangeal joints of left thumb and middle finger (F. E. Saxby Willis), 540
- Actinomycosis** (?) of tonsil (A. L. Macleod), 1622
 of udder of cows, in relation to milk, 782
- Adams, J. E.**—Discussion on treatment of gangrene of extremities, 489
- Adamson, H. G.**—Two cases of recurrent cellulitis of face, 560
- Addison, O. L.**—Discussion on treatment of cleft palate by operation, 1915
- Adeno-carcinoma** of kidney (W. Girling Ball), 715
- Adenoma**, intramural abscess of colon secondary to, and simulating carcinoma (Sir C. Gordon-Watson and C. Dukes), 255, 256
 mucous, of palate, case for diagnosis (J. E. M. Wigley), 1059
 (?) of parotid (W. H. Jewell), 224
 of rectum and colon, 252
- Adenomatosi**s of rectum or colon, 253
- Adenomyoma** of rectum and colon, 253
- Adie, W. J.**—Case of familial periodic paralysis, 1837
 congenital deformity or old injury to cervical spine: recent onset of paraplegia, 1838
 myasthenia gravis in boy aged 10, 1838
- Adiposity**, pituitary (B. Myers), 774
- Adiposogenital** dystrophy following puncture of tuber cinereum, 1651
- Adler, A.**—The feeling of inferiority and the striving for recognition, 1881-1886
- Agotan** in treatment of gout, 260
- Air** embolism following induction of artificial pneumothorax, venesection for, 1551
- Air-passages**, upper, ulcers of, treatment by diathermy, descriptive cases, 760, 761
- Aitken, D. McCrae.**—Tuberculous disease of spine, 239

- Alcohol** injection, peri-arterial, in treatment of gangrene, 486, 487
- Alcoholic** extracts of scolices, method of preparation, 710
- poisoning, acute, treated by blood-letting, 1554
- Alcoholism**, in relation to sensitiveness of skin to light, 20
- Aleukæmic** lymphadenosis, case of (F. Parkes Weber), 543
- Alimentary** bacteria in urinary infections, frequency of, 288
- Alkalis**, value of, in prevention of scarlatinal nephritis, 1406, 1407
- Allonal**, 1480
- Alopecia** caused by thallium, experiments explaining, 1197
- traumatic, case of (H. MacCormac), 102
- Alpine** stations, light treatment of surgical tuberculosis at, 808
- Alternating** currents, effect of, in electro-therapy, 107
- Alton** (Hants) and Hayling Island, basal metabolism in patients treated at, compared, 810
- light treatment of surgical tuberculosis at, method employed, 808
- Alveolar** hydatid in man, comparison with bovine hydatid, 281, 282
- geographical distribution of, 281
- Amblyopia**, toxic, industrial (M. S. Mayou), 1112
- Amnesia**, auditory (name amnesia), outstanding symptom in left temporo-sphenoidal abscess opened sixteen days after onset of acute otitis media (S. Scott), 1155
- Ammonia** dysregulation theory of epilepsy, 861
- Amœbic** hepatic abscess, treated as an outpatient with emetine only (V. S. Hodson), 1334
- Amyotrophy**, syphilitic (D. McAlpine), 1839
- Anæmia**, case of (R. C. Jewesbury), 1321
- porphyritic, congenital, 19
- Anaerogenic** intestinal bacteria, a little-known group of (A. Castellani), 1261-1268
- Anæsthetic**, choice of, in surgical treatment of gastric and duodenal ulcer, 647
- Anæsthetics**, influence on sugar tolerance, 311
- in dental operations, discussion on, 1297-1304
- difficulties of dental surgeon in, 1301
- dosage in, method of adjusting, 1298
- endotracheal method for, 1302
- injuries resulting from, 1300
- position of patient in dental chair during administration, 1300
- Anal** obsession in homosexuals, 904, 905, 915
- Anaphylactic** reactions due to systemic sensitization to bacterial protein, 1423
- Anatomical** factors in urinary infections (W. Girling Ball), 285-293
- Anatoxin**, treatment of positive Schick reactors with, experiments described, 45, 46
- Ancylostoma braziliense*, 552
- duodenale*, 552
- Anderson**, J., on use of diathermy in surgery (quoted), 757
- Andrewes**, Sir Frederick, O.B.E.—Discussion on serum treatment of scarlet fever, 1181
- Andrewes**, W. H.—Discussion on trypanosomiasis in man and animals, 971-976, 984
- Andrews**, H. Russell.—Discussion on radical abdominal operations for carcinoma of cervix, 130
- Aneurysm**, arterio-venous, with bullet retained in heart muscle (E. G. Slesinger), 1326
- cerebral, sudden death from, in case of stenosis (co-arcuation) of aortic isthmus (F. Parkes Weber), 1227-1240
- cirsoid, of right posterior scapular artery (C. P. G. Wakeley), 780
- right suprascapular artery (C. P. G. Wakeley), 545
- (?) of common carotid artery, case of (Sibyl R. Eastwood), 339
- of aorta, sac like, X-ray appearances of, 1062
- of innominate artery: spontaneous disappearance of swelling in neck (D. Krestin), 1327
- of internal carotid (E. B. Barnes), 1778
- venesection in treatment of, illustrative cases, 1559
- Aneurysmal** dilatation of left auricle, two cases of (D. E. Bedford), 328
- Angina** pectoris, true, subjects of, anæsthetic for in dental operations upon, 1298
- Angioid** streaks of the retina, case of (O. G. Morgan), 881
- Angioma** of kidney (G. Simpson), 728-730
- case records of, 729
- serpiginosum (?) case of: for diagnosis (F. Parkes Weber), 1341
- early, confined to one shoulder (F. Parkes Weber), 1827
- Animal** and plant tissues, features common to, 1509
- hosts of helminthes in man, table of, 554-556
- Animals**, elongated styloid process and the stylohyoid arch in: epidiroscope demonstration (D. Guthrie), 1396
- helminth parasites of, and human disease (T. W. M. Cameron), 547-556
- and man, trypanosomiasis in, discussion on, 971-985
- wild, captive, tuberculosis in, compared and contrasted with the disease in man (H. H. Scott), 197-204
- see also under *Tuberculosis*
- Ankle-joint**, arthritis of, chronic: surgical treatment of, 1472
- Ankylosis**, bony, of interphalangeal joint of finger (B. W. Howell), 239
- of temporo-mandibular joint, three cases of (E. C. Hughes), 1042
- Annecke**, S.—Relative numbers of male and female gametocytes in human malaria (*Plasmodium vivax*, *Plasmodium falciparum* and *Plasmodium malariae*) and *Hæmoproteus* in birds, 267-271
- Anterior** chamber, cholesterol crystals in, 880
- Anthrax** of cows, in relation to milk, 781
- Antimony**, treatment of leprosy with, 990
- Antral** inflammation, catarrhal, chronic, case of (L. G. Brown), 1401
- suppuration, double, patches of choroiditis at maculæ secondary to (J. C. Marshall), 432
- Antro-meatal** fistula, abscess of temporal fossa secondary to (D. McKenzie), 1446
- Antrum**, empyema of, chronic; cure of, after operation on frontal sinus, 1770

- Antrum**, endothelioma of, apparently cured by radium, recent local recurrence after 3 years (W. Howarth), 1092
- Aorta**, dilatation of, X-ray appearances of, 1061
endocardial disease of, X-ray appearances of, 1062
sclerosis of, X-ray appearances of, 1061
- Aortic** isthmus, stenosis (co-actation) of, with sudden death from rupture of a cerebral aneurysm (F. Parkes Weber), 1227-1240
development of collateral circulation in subjects of, 1233-1234
infantile and adult types compared, 1233
infantile type, case of, 1240
notes on literature, 1235-1239
references, 1240
valves, syphilitic insufficiency of, X-ray appearances of, 1062
- Aphasia** and right-sided hemiplegia, child recovering from attacks of Jacksonian epilepsy on the right side (F. Parkes Weber), 80
left-sided temporo-sphenoidal abscess with (W. M. Mollison), 1147
- Aphonia**, hysterical, spastic, case of (Sir J. Dundas-Grant), 1639
- Appendicectomy** operation statistics, Royal Naval Hospital, Haslar, 306
- Appendicitis**, case rate per 1,000 in Royal Navy, 1163
in peace time military surgery, 304
comparison with civil deaths, 304, 305
in relation to urinary infections, 288, *et seq.*
illustrative cases, 290, *et seq.*
mortality rate in civil population, 1164, 1165
tuberculous, 655
- Apoplectic** seizures, blood-letting in, 1552
- Archer**, B. W. C., and **Worster-Drought**, C.—Case of ateleiosis (Lorain's disease), 771-773
- Architecture**, see *Service Architecture*
- Argyria**, case of (H. Davis), 92
- Arm** and leg, gangrene of, case of (W. Broadbent), 1821
hamangioectatic hypertrophy of, case of (C. C. Beatty), 532
- Army**, abdominal hernia in, 501
incidence of disease in, compared with that in Navy, 1168
- Arnold**, M. B., discussion on prophylaxis of measles, 1617
on the hospital in relation to the public health, 215
- Arsenic**, treatment of leprosy with, 930
- Arterial** bruit causing tinnitus (L. G. Brown), 1448
- Arteries**, calcification of, Paget's disease with, case of (C. F. T. East), 4
- Arteriectomy**, radial, in young children, for suffocative catarrh, 1551
- Arterio-venous** aneurysm with bullet retained in heart muscle (E. G. Slesinger), 1326
- Arthritis** and osteoporosis, case of (L. S. T. Burrell), 2
climacteric, aetiological and clinical features, 521
association of localized panniculitis with, 515, 520
definition of, 517
discussion on, 511-527
flat-foot in relation to, 518
- Arthritis**, climacteric, hypothyroidism in relation to, 510, 511
knock-knee as factor in causation of, 520
metabolic causation of, 523, 524
objections to conception as special disease, 517, 519, 523, 525
reasons why hitherto undefined, 514
references to, in literature, 514
stages of, 511
treatment of, by diathermy, 526, 527
endocrine, term suggested in place of climacteric, 522
hypoglandular, 513, 519, 521, 522
non-tuberculous, chronic, surgical treatment of, discussion on, 1465-1477
manipulation in, 1475
sites of infection in, 1465
osteo-, surgical treatment of, 1466
rheumatoid: is it a deficiency disease? (M. J. Rowlands), 1711-1728, 1737
aetiological conclusions, 1717
conclusions as to treatment, 1717
relationship to vitamin-B deficiency, 1717
surgical treatment of, 1466
- Arthrodesis** in treatment of pes cavus, 1123
of hip-joint, 1468
- Arthropathy**, Charcot's, of wrists (C. Worster-Drought), 192
- Arthroplasty** for ankylosis of temporo-mandibular joint, three cases of (E. C. Hughes), 1042
of hip-joint, 1468
- Arthrotomy**, with freshening of fractured surfaces in treatment of ununited fractures of femoral neck, 451
- Ascites**, pregnancy with, case of (H. Briggs), 405
- Asphyxia** by non-irritant gases, venesection for, 1553, 1572
- Astragalus**, osteomyelitis of, old case of (P. Turner), 327
- Ateleiosis** (Lorain's disease), case of (C. Worster-Drought and B. W. C. Archer), 771-773
- Atophan** in treatment of gout, 260
- Attwater**, H. L.—Discussion on the breakdowns of middle life, 1038
- Auditory** canal, external, necrosis of anterior bony wall of, following furunculosis (right ear) (N. Rankin), 1447
disharmony, case of (P. Franklin), 479
meatus, external, dermatitis of (D. McKenzie), 459-461
- Aural** suppuration, intracranial complication of (E. B. Barnes), 1879
- Auricle**, erysipelas of, 462
left, aneurysmal dilatation of, two cases of (D. E. Bedford), 328
rudimentary, case of (H. J. Banks-Davis), 619
in boy, aged 4 years, X-ray skiagram showing normal bony auditory canal in (H. J. Banks-Davis), 1443
- Auricular** fibrillation, mitral stenosis, tricuspid stenosis and incompetence; varix of right external jugular vein (D. Hunter), 386
- Auto-intoxication**, retinal petechiasis a clinical entity of (H. M. McCrea), 607-614
- Avian** tuberculosis, 197
see also under *Tuberculosis*
- Axhausen**, J., and **Weber**, F. Parkes.—Hypoplasia (aplasia) pilorum moniliformis, 95

- Azim, M. A., and Thomson, J. G.**—Oocysts of a coccidium in the faeces of laboratory and wild rats, 701-704
- Bacillus acidophilus odontolyticus*, 873
and *Streptococcus mutans*, comparative bacteriology of, 874
in saliva, incidence of, 876
in carious teeth, 873
ceylonensis A, 1261
ceylonensis B, 1261
coli anaerogenes, 1261
coli in urine, incidence of, in various experiments in relation to rheumatoid arthritis, 1712, *et seq.*
dysenteriae in relation to sporadic ulcerative colitis, 369
Shiga and Flexner, differentiation by symbiotic fermentation phenomenon, 1270, 1271
gintottensis, 1261
madampensis, 1261
metadysentericus, 1261
- Bacteria**, dead, injection of saline containing, causing protein shock, 139
drug-fastness of, in chemotherapy, 789
intestinal, anaerogenic, a little-known group of (A. Castellani), 1261-1268
reaction of, to chemotherapeutic substances *in vitro* and *in vivo*, 790
- Bacterial immunization**, mechanism of, 139
theory of pathogenesis of gastric and duodenal ulcer, 641
therapy, non-specific, 138, 140
antibody response in, 140
general tissue response in, 140
haemobactericidal power, 142
leucocyte response in, 140
specific antibodies in, 143
- Bacteriology**, importance of, in ophthalmology, 74
of dental caries (Ian H. Maclean), 873-878
Bacterium lumefaciens, 1507
- Badgerow, G. W., C.M.G., and Ormerod, F. C.**—Chronic enlargement of upper jaw, 1779
- Baker, A.**—The causes of antenatal, neo-natal, and postnatal deaths, 409
- Ball, W. Girling.**—Adeno-carcinoma of kidney, 715
renal carbuncle, 716
some anatomical factors in urinary infections, 285-298
- Ballance, Sir C.**—Discussion on glosso-pharyngeal-facial nerve anastomosis, 1442
and **Colledge, L.**—Cinematograph demonstration: effects of nerve anastomosis in the movements of the vocal cords and diaphragm, 217
- Bamford, J.**—Discussion on necrosis of cortex of kidney after labour, 1260
- Banister, J. Bright.**—Results of myomectomy undertaken in hope of curing sterility, 1669, 1670
- Banks-Davis, H. J.**—Case of rudimentary auricle, 619
fibroma on anterior surface of left vocal cord, 600
X-ray skiagram showing normal bony auditory canal of boy, aged 4, with rudimentary auricle, 1443
- Bárány.**—“Eisenbahn” nystagmus, 1409
- Barber, H. W.**—Benign lymphogranuloma (Schaumann), 1344
case of lichen spinulosus, 98
of sarcoid, 1051
confluent lichen nitidus with lesions on tongue, 1052
discussion on ichthyosis and cancer of skin, 1596
lupus erythematosus of scalp, associated with scars of old papulo-necrotic tuberculide lesions and of erythema induratum on arms and legs, 1053
mycosis fungoides, 1343
relationship of dental infections to diseases of the skin, 1421-1430
two cases of Boeck's sarcoid (benign lymphogranuloma of Schaumann). Treated by intramuscular injections of sodium morrhuate, 347
- Barbituric acid group of hypnotic drugs**, clinical action of, 1481
acute poisoning by, 1481
clinical and pathological effects of, 1479-1506
conclusions regarding, 1486
danger of, 1480
drug addiction to, 1483
effects on central nervous system, 1492
on vascular system, 1491
examples of, 1480
hypnotic action of, 1491
idiosyncrasy to, 1497
introduction of, 1497
poison regulations regarding, 1486
poisoning by, cases of, toxicological analyses of, 1503
index to cases of, 1499-1502.
post-mortem changes in, 1484
symptoms of, 1494
toxicology, 1494
two cases illustrating differential diagnosis, 1498
references, 1495, 1499
site of action of, 1490
statistics of fatal cases (1905-1925), 1485
subacute and chronic poisoning by, 1482
tolerance to, 1482
toxic action of, 1481
toxicological analysis, 1484, 1485
- Barkas, Mary.**—Case for diagnosis between psychogenic depression and the post-encephalic syndrome, 632
psychosis associated with pressure from a disc of bone replaced after trephining, 630
showing recovery after relief of intracranial pressure of doubtful origin, 631
- Barnes, E. Broughton.**—Case of rodent ulcer metastasis, 621
discussion on effects of nerve anastomosis, 218
on progressive middle-ear deafness, 1856
frontal abscess; no headache; no localizing signs, 1449
intracranial complication of aural suppuration, 1879
large temporo-sphenoidal abscess following injury: no localizing signs except homolateral papilloedema, 1153
left temporo-sphenoidal abscess, 1154

- Barnes, E. Broughton.**—Meningeal symptoms developing, disappearing and reappearing. Cerebral abscess, possibly leaking into meninges, 1878
- Barnett, H. Norman.**—Discussion on progressive middle-ear deafness, 1853
- papilloma of Stenson's duct followed by great enlargement of parotid gland: case for diagnosis, 1773
- three cases of deafness, 1874
- Barrington, F. J. F.**—Affections of micturition resulting from lesions of nervous system, 722-727
- Barrington-Ward, L. E.**—Discussion on treatment of cleft palate by operation, 1936
- Barton, J. Kingston**—Discussion on light treatment in surgical tuberculosis, 815
- on migraine, 1107
- on oral manifestations of systemic disease in children, 1514
- on prevention of scarlatinal nephritis, 1408
- on tuberculosis in captive wild animals and man, 204
- Basal metabolism in patients at Alton and Hayling Island compared,** 810
- in relation to light treatment, 810
- lowering of, in climacteric arthritis, 521, 522
- Batten, G. B.**—Discussion on diathermy, 767
- Men, Booms, Steady Progress (Presidential address), 31-42
- Batten, R. D.**—Discussion on coloboma of the macula, 434
- drawings of fundus oculi illustrating dilatation of blood-vessels, 1688
- fundus drawings illustrating various forms of pathological changes associated with myopia, 69
- fundus drawings illustrating various forms and varieties of Tay's choroiditis, 431
- "Bayer 205,"** treatment of trypanosomiasis in man by, 976
- see also *Germanin*
- Baylis, H. P.**—Discussion on anaesthetics in dental operations, 1301
- Bazin's** disease, chronic painless synovitis of knee associated with (A. H. Todd), 892
- Beato, 1480**
- Beatty, C. C.**—Case of haemangiectatic hypertrophy of the arm, 532
- Beckwith** method of staining teeth, 1675-1678
- Beddard, A. P.**—Discussion on surgical treatment of chronic non-tuberculous arthritis, 1465
- Bedford, D. Evan.**—Two cases of aneurysmal dilatation of left auricle, 328
- Bell, W. Blair.**—Discussion on internal secretions of ovary, 1667
- Belladonna,** in treatment of epilepsy, 865
- Bell's** palsy, descendeus noni facia anastomosis for (L. Colledge) 1138
- Belts, colostomy,** 1457
- Bebrochin, 920**
- Berdmore, Thomas.**—Dentist of eighteenth century, 359
- Berry, Sir James.**—Discussion on treatment of cleft-palate by operation, 1887-1891
- Besnier and Raach,** prurigo of, in an adult (F. Parkes Weber), 557
- Bifocal lenses,** strength of, 73
- Bigwood,** alkalosis theory of causation of epilepsy, 861
- Billroth I and II operations** for gastric ulcer, 645
- Biological** conceptions of hydatid, modern (T. W. M. Cameron), 272-283
- Birds,** tuberculosis in, 197
- microscopical appearances of, 204
- Birth injury,** cases of (C. M. Hinds Howell), 1246; (W. F. Fedden), 1313
- Bisgaard, Norvig, and Larsen.**—Ammonia dysregulation theory of causation of epilepsy, 861
- "Bismoxyle,"** active compounds in bismuth therapy, 791
- Bismuth** therapy, tissue-reactions in, 791
- Bladder and urethra,** nerves of, anatomy of, 722
- malignant disease of, treatment of (H. Wade), 1281-1288
- inoperable, statistics, 1289
- treatment by hemicystectomy, 1283
- by partial cystectomy, 1283
- by total cystectomy, 1284
- papilloma of, innocent or malignant, difficulty of deciding, 1282
- removal of, 1281, 1282
- treatment by diathermy, 764
- Blandy, Marjorie A.**—Descending lipodystrophy, 1245
- Bloch, nature of homosexuality** (quoted), 905
- Blomfield, J.**—Discussion on teaching of ether anaesthesia, 188
- Blood,** alkaline reserve of, depletion of, 310
- bactericidal power of, effect of light on, 1522, 1523
- cholesterol, level of, in relation to epilepsy, 862, 863
- cyst, subdural, in right frontal region, located by pneumo-radiograms, case of (Sir J. Purves-Stewart), 1837
- eosinophilia, very high, in abdominal lymphogranulomatosis maligna (Hodgkin's disease) (F. Parkes Weber), 1337
- ketone bodies in, 310
- Blood-letting,** discussion on, 1547-1574
- acute poisoning treated by, 1554
- chronic affections relieved by, 1555
- disuse of, influential opinions directed towards, 1548
- treatment of chlorosis by, 1555
- of ill-defined cases of high blood-pressure, 1557
- of polycythemia, 1555, 1556
- summary of asphyxiation experiments, 1550
- references, 1555, 1556, see also *Venesection*
- Blood, maternal,** transfusion of and injections of radiated ascitic fluid, in treatment of ovarian carcinoma with peritoneal metastases (H. B. Whitehouse), 407
- pressure, high and low, in relation to ophthalmology, 77
- high, ill-defined cases of, blood-letting in treatment of, 1557
- systolic and diastolic, record of both important, 77
- reaction of, factors influencing, 309
- sugar, increase of, during ether anaesthesia, 315, 316
- supply disturbed, in relation to origin and persistence of gastric and duodenal ulcer, 637

- Blood**, urea, estimation of, as test of renal function, 1810
 uric acid in, in gout, value of estimation of, 258, 259
- Bloomfield**, A.—Case of patent Wolffian duct, 869
 cyst occupying the utero-vesical space, 871
- Blue** sclerotics, see *Sclerotics, blue*
- Boeck's** sarcoid (benign lymphogranuloma of Schaumann), treated by intramuscular injections of sodium morrhuate, two cases of (H. W. Barber), 347
 (?) case for diagnosis (A. M. H. Gray and W. N. Goldsmith), 1348
- Boldero**, H. E. A.—A chondro-dystrophy, 324
 congenital cirrhosis of liver, 322
- Bone**, changes in, in gout, differential diagnosis of, 257
 grafting in treatment of fractures of upper end of femur, 447
 in treatment of ununited fractures of the femoral neck, 451
- Bony** changes with chronic renal disease (A. A. Osman), 1041
 lesions, multiple, specimens from case of, previously shown November, 1925 (J. H. Sheldon), 1
- Bonney**, V.—Outcome of 214 radical abdominal operations for carcinoma of cervix performed five or more years ago, 120
- Bovines**, tuberculosis in, microscopical appearances of, 203
- Bowel**, perforation of, in a baby, Hirschsprung's disease (J. R. Griffith), 1824
- Bowen's** disease (J. H. T. Davies), 1831
- Boyle**, H. E. G.—Discussion on anaesthetics in dental operations, 1302
- Brackett's** operation in treatment of ununited fractures of femoral neck, 451
- Brailsford**, J. F.—Discussion on cholecystography, 1205-1218
 Discussion on X-ray study of cardio-vascular syphilis, 1063
- Brain**, abscess of, superficial, cases of (W. H. Ogilvie) (C. Gill-Carey), 1147
 abscess of, cerebro-spinal fluid in, 1141
 diagnosis and localization of, some points in (C. P. Symonds), 1139
 diagnosis and localization of, references, 1144
 loculated (W. M. Mollison), 1154
 superficial, 1142
 temporal and cerebellar, diagnosis and localization of, 1139, 1140
 appearance of, in epileptic fit, 856
 conscious, inhibition of, by drugs, 507, 508
 by nitrous oxide and air (or oxygen), 507, 508
 methods of, 507
 frontal lobe of, glioma of, with extension into left nasal cavity, 1750
 frontal region of, right, subdural blood-cyst in, located by pneumo-radiograms, case of (Sir J. Purves-Stewart), 1837
 human, grey matter of surface, layers of, 505, 506
 localization of function in, 505
 methods of removal in Egyptian mummies, 844
 tissue, nasal polypus containing, 1756
 within the nose, occurrence of: the so-called nasal glioma (D. Guthrie and N. Dott), 1749-1762
 recorded cases of, and references, 1760-1762
- Brain**, tumours of, diagnosis of, errors avoidable and unavoidable, 63
 diagnosis of, gross errors in, illustrative cases, 58-62
 diagnosis of, some pitfalls in, 62
 distribution in, 115 verified cases of, 57
 tuberculosis of, in captive wild animals, 200
- Brain**, W. Russell.—Discussion on epilepsy, 861
- Breast**, cancer of, and cancer of uterus, rate of mortality from, possibility of reducing (M. Greenwood and J. E. Lane-Claypon), 569-582

- Cellulitis**, recurrent, of face, two cases of (H. G. Adamson), 560
- Celluloid** and duralumin jacket, application for mid-dorsal caries, 134, 135
- Central** nervous axis, lesions of, affections of micturition due to, 725
- system, changes produced by drugs of barbituric acid and sulphonal groups, 1486
- effects of barbituric acid and sulphonal group of drugs upon, 1492
- epidemic diseases of, hospital accommodation required for, 205
- late syphilis of, forms of, 956
- Cercaria** of *Schistosoma mansoni*, development of, 1511, 1512
- output of by infected snails, 1512
- Cerebellum**, abscess of (R. J. Cann), 1146
- leaking, recurrent meningitis from (D. McKenzie), 478
- left (T. H. Just), 1149
- right (G. W. Dawson), 1150; (S. Scott), 1152
- secondary to thrombo-phlebitis of bulb of jugular vein (Sir J. Dundas-Grant), 1153
- two cases of, previously reported (S. Scott), 1155
- Cerebellum**, disappearance of Purkinje cells and loss of Nissl staining substance in sulphonal fed monkey, 1487
- left lobe of, compression of, large extradural abscess with collapse of lateral sinus and (N. Rankin), 1447
- mucinoid deposit in, in veronal-fed monkey, 1486
- tuberculoma of (S. Wyard), 1320
- Cerebral**, see under *Brain*
- Cerebro-spinal fluid** in cerebral abscess, 1141
- manometry, 1417

- Cervical rib:** thrombosis of subclavian artery. Contralateral hemiplegia of sudden onset, probably embolic (C. P. Symonds), 1244
- Cervix,** carcinoma of, extensive, uterus and vagina with placenta *in situ* showing (L. C. Rivett), 1657
outcome of 214 radical abdominal operations for, performed five or more years ago (V. Bonney), 120
influence of glandular involvement on, 122, 125
statistical review, 126-129
statistics on basis of five years' freedom from recurrences, 121
statistics on basis of seven years' freedom from recurrence, 123
statistics on basis of ten years' freedom from recurrence, 125
spontaneous separation of, in labour (L. Phillips), 1659
- Chandler, F. G.**—Discussion on diagnosis and treatment of intrathoracic new growths, 181
on treatment of non-tuberculous infection of lungs, 743
- Charcoal,** administration in colitis, 374
- Charcot's** arthropathy of wrists (C. Worster-Drought), 192
shoulder, syringomyelia with (C. P. Symonds), 1043
- Chaulmoogra** oil, treatment of leprosy with, 991, 993, 994, 998, 1011
chemical composition of, 995
- Cheatle, A. H., C. B. E.**—Temporal and zygomatic abscess in chronic middle-ear suppuration, 628
- Chemical** substances, action of, on micro-organisms, theory of, 789
- Chemotherapeutic** substances, action of, *in vitro* and *in vivo*, 789
chemical action of, 788
immunological reactions due to influence of, 788
- Chemotherapy,** drug-fastness in, 788, 789
immunity reactions following, 794
in trypanosomiasis, 974
influence of time of treatment in, 792
non-specific protein therapy in relation to, 794
organotropy in relation to, 791
principal questions in, with special regard to heavy metals (H. Möllgaard), 787-796
reaction of tissue of infected organism with drug, 791
theories of, factor of dosage in, 793
- Chest,** tumour of, secondary, with enlarged glands on left side of neck, X-ray appearance of, 177
- Chick, H.**—Discussion on rheumatoid arthritis, 1733
- Chilblainy** condition of legs somewhat resembling erythema induration, two cases of, also a case of erythema induration for comparison (F. Parkes Weber), 799
- Child, Graves' disease** in (B. Myers), 6
recovering from aphasia and right-sided hemiplegia; attacks of Jacksonian epilepsy on right side (F. Parkes Weber) 80
welfare, see under *Maternity and Child Welfare*
- Children,** dental operation on, administration of ethyl chloride in, 1303
disease in, study of, section for, and its work, 1908-1926 (J. D. Rolleston), 1575-1581
officers (1908-1926), 1576
in need of hospital treatment, accommodation necessary for, 207
light therapy in, 1520
signs of overdosage, 1520
localized suppuration in connexion with jaws in, without signs of dental infection, 1533
osteomyelitis of jaws following scarlet fever in, 1534
systemic disease in, oral manifestations of, 1531-1546
tuberculous infection of jaws in, 1553
- Children's Hospital,** see under *Hospital*
- Chloroform** anesthesia, glycosuria with, 316
toxic action on liver cells, 315
- Chlorosis,** blood-letting in treatment of 1555
- Choanæ,** posterior, bilateral occlusion of, congenital (H. Tilley), 1394

at Mayo Clinic, statistics and results of, 1221
at St. Bartholomew's Hospital, table of results, 1224
cause of failure to obtain a shadow in, 1225
dose of sodium tetrabromophthalate in, 1223
errors in diagnosis in, cause of, 1214, 1215
importance of preliminary X-ray examination of thorax and abdomen in, 1205, 1206
injection of the dye in, 1209
method of, intravenous, 1204, 1205, 1209, 1210, 1218, 1221, 1222, 1224, 1225
oral, 1217, 1218, 1219, 1221, 1222, 1224, 1225
reaction to the dye in, 1215
two hundred cases of, comparative table, with subsequent operative findings, 1217, 1218
use of Potter-Bucky diaphragm to take skiagram in, 1205
uses and limitations of, 1203
value of, 1217
- Cholecystographts,** 1209, 1211, 1212, *et seq.*
methods of making exposures, 1210
- Cholesteatoma** of external meatus, method of softening before removal, 470
- Cholesterin** crystals in the anterior chamber (B. Cridland), 880
- Cholesterol,** effects of light on, 1518, 1520
- Chondro-dystrophy** (H. E. A. Boldero), 324
- Chordoma,** sacrococcygeal, 254
- Chordomata** of rectum and colon, 254
- Chorea,** Huntington's (L. Yealland), 389
- Choroidal** exudate (?) (Ida C. Mann), 1115
- Choroidal** sclerosis (?) (J. D. M. Cardell), 68
- Choroiditis,** patches of, at macula, secondary to double antral suppuration (J. C. Marshall), 432
peripheral, cases of (J. C. Marshall), 65-68
- Choroido-retinitis,** macular, left, with (?) infiltration of Cloquet's canal (R. Scott), 1435
- Chronaxie** of nerves and muscles, relation of, to strength of stimulus, 105
- Churchill, Stella.**—Discussion on prophylaxis of measles, 1619
- Chylothorax,** mediastinal tumour with (B. T. Parsons-Smith), 191
- Cibalgin,** 1480

- Cigarette** smoking as factor in increased incidence of diseases of digestive system, 1168, 1169
- Cinchophen**, conditions other than gout in which used, 264
in treatment of gout, 259, 260
dosage and interval period, 263
effect on uric acid output, illustrative case, 261
mode of action of, 260
serious complications following administration of, illustrative cases, 264
- Cinematograph** demonstration, effects of nerve anastomosis on the movements of the vocal cords and diaphragm (Sir C. Ballance and L. Colledge), 217
- Circulatory** disturbances in stomach in relation to causation of gastric and duodenal ulcer, 639-641
- Circumvallation**, operation of, 755
- Cirrhosis** of liver, congenital (H. E. A. Boldero), 322
- Cirsoid** aneurysm of right suprascapular artery (C. P. G. Wakeley), 545
- Cisterna** puncture, technique of, 1417
- Clark, W. L.**—Operation of electro-dissection, 756

- Eimeria**, oocysts of, in faeces of rats, 701
- "Eisenbahn"** nystagmus, 1409
- Elbow-joint**, arthritis of, chronic, surgical treatment of, 1473
- Electric** retinitis, case of (A. H. Thompson), 428
- Electrical** currents, alternating, effects on cardiovascular system, 115
 high-frequency, rectified, 108
 interrupted, action on involuntary muscle and tissues of low excitability, 109
 physico-chemical action of, in relation to their therapeutic effects (W. J. Turrell), 103-113, 116
 theory of action of, 113
 therapeutic action on sensory nerves, 110
 muscular contraction, variation with ionic concentration, 104
 stimulation of nerve and muscle, action of "virtual" and terminal poles, 104
- Electrodes**, aural, for use in treatment of chronic otorrhœa by zinc ionization and zinc electrolysis (A. R. Friel), 1874
- Electro-dissection**, operation of, 756
- Electrolysis** for removal of hair, infection (? tuberculous) of skin following (E. G. G. Little), 102
- Electro-therapy**, choice of method, 110
 development of, historical data, 31-42
 difference in quickness of excitability of normal and abnormal neuro-muscular mechanism in, 105, 106
 progress in, factors governing, 32
- Elephantiasis** of scrotum, relationship of *Onchocerca volvulus* to, 932
- Elliot**, R. H.—Discussion on retinal petechiasis, 615
- Ellis**, H. A.—Discussion on the breakdowns of middle life, 1035
 on climacteric arthritis, 533
 on rheumatoid arthritis, 1736
- Ellis**, Havelock.—Hereditary element in homosexuality (quoted), 905
- Elmslie**, R. C., O.B.E.—Discussion on treatment and results of fractures of upper end of femur in adults, 454
 on treatment of chronic non-tuberculous arthritis, 1474-1476
 two cases of spastic paralysis associated with scoliosis, 1697
- Embryo**, human, earliest trace of enamel knot in, 411
 enamel niche in, 412
 fenestration of deciduous tooth band, 415
 outer and inner enamel bands in, 412

- Embryo**, human, permanent tooth band, 415
tooth band and lip furrow in, 411
enamel strand and enamel navel of deciduous teeth in, 420
formation of stellate reticulum of enamel organ in, 420
origin of intercellular fluid in stellate reticulum of enamel organ in, 422
vascularity of enamel organ in, 424
- Embryology**, dental, modern work in, 411
- Embryonic** sarcoma of kidney (E. G. Slesinger), 719
- Emetine** only in case of amoebic hepatic abscess treated as out-patient (V. S. Hodson), 1334
- Emotional** distress, relation of, to epilepsy, 858
- Empyema** of antrum, chronic, cure of, after operation on frontal sinus (H. Kisch), 1770
pleural, treatment, surgical, criticized, 749
- Enamel** and dentine lymph supply of (E. W. Fish), 225-232
bands of human deciduous teeth, microscopical appearances of, 412, 413
human and animal compared, 233, 235
organ, vascularity of, in human deciduous teeth, 424
organs and tooth band of the human deciduous teeth, observations on (C. A. Wakeford), 411-426
- Encephalitis**, non-suppurative, localized (W. M. Mollison), 1142, 1148
Schilder's, with a family history of the disease, case of (C. P. Symonds), 1242
syphilitic (C. P. Symonds), 384
vaccination, recovery from, with hemiplegia, (J. P. Martin), 1838
- Endocarditis**, infective, subacute, in congenital morbus cordis (B. Schlesinger), 1588
septic, hæmaturia associated with, 1293
- Endocranium**, invasion of, by carcinoma of ethmoid, specimen showing (Dan McKenzie and G. Scott Williamson), 1087
- Endocrine** disorder, functional peculiarity of gait with (F. Parkes Weber), 778
factors in ætiology of osteo-arthritis, 513
glands, secretions of, failure of, in relation to breakdowns of middle life, 1028, 1037
- Endometrioma** of ovary (A. L. McIlroy), 117
- Endothelioma** of antrum apparently cured by radium; recent local recurrence after three years (W. Howarth), 1092
of pleura, 152
- Endotracheal** method of anæsthesia for dental operations, 1302
- England**, Guanche mummies in, 832
- English** literature, place of the Tudor surgeons in (Sir D'Arey Power), 1075-1079
physicians—"Doctorati"—at the University of Padua in the "Collegio Veneto Artista" (1617-1771) (E. Morpurgo), 1369-1380
- Enteritis**, tuberculous, 654
Enterobius vermicularis, 552
- Entero-colitis**, tuberculous, 662
- Epibulbar** vernal catarrh (C. Goulden), 1794
- Epidemic** constitution, doctrine of, development of, 1349, 1350
objections to term, 1366
- Epidemic** diseases of central nervous system, hospital accommodation required for, 205
potential, 1366
- Epidemics** of measles, suggested scheme for dealing with, 1613
- Epididymitis**, tuberculous, with meatal papillomata (R. R. Macintosh), 777
- Epiglottitis**, larynx, nose and pharynx, chronic diffuse tuberculosis of, case of (C. A. S. Ridout), 594
ulceration of, for diagnosis (L. Graham Brown), 600
- Epilepsy** a symptom not a disease entity, 865
attacks due to, diagnosis from cardiac attacks, 864
Bigwood's alkalosis theory of, 861
biochemical investigations of, 861
Bisgaard, Norvig and Larsen's theory of ammonia dysregulation in, 861
blood-cholesterol level in relation to, 862, 863
discussion on, 855-866
essential features of, 855
experimental, convulsants in, 864
fit in, appearances of brain during, 856
inheritance in, 860, 864
Jacksonian, attacks of, on right side, in child recovering from aphasia and right-sided hemiplegia (F. Parkes Weber), 80
hæmangioma causing (C. G. P. Wakeley), 545
tumour of skull (C. F. T. East), 2
of metabolic origin, 857
of organic origin, 855
of psychogenic origin, existence of, discussed, 857
of unknown origin, 859
pituitary tumours in relation to, 857
recent, surgical treatment of gunshot wound in right pre-frontal region for consideration of (C. P. G. Wakeley and E. Mapother), 630
relation of emotional distress and hysteria to, 858
traumatic, 856
treatment by intravenous injection of bromide, 864
with belladonna, 865
- Epileptic** mentality, 859
- Epilöia** (T. Brushfield), 83
case of (W. Moody), 632
- Epiphysitis** of infancy, deformity and dislocation of hip-joint from (A. H. Todd), 893
- Epistaxis**, renal, 1295
- Epithelioma** adenoides cysticum (G. B. Dowling), 1054
developing on scleroderma, microscopic sections from case of (J. M. H. MacLeod and J. E. M. Wigley), 559
lupus vulgaris with (A. MacCormac), 351
of left tonsil, left anterior pillar of fauces, tongue and lower jaw (C. A. S. Ridout), 221
of left vocal cord (L. G. Brown), 1397
of tonsil in a woman (N. Patterson), 221
on scleroderma, case of (J. M. H. MacLeod and J. E. M. Wigley), 344
treated successfully by deep X-rays, three cases of (W. M. Mollison), 1772

- Erasistratus** (J. F. Dobson), 825-832
views on bodily functions, 827
on digestion, 827
on doctrine of the humours, 831
on growth and structure, 826
on hygiene, therapeutics, surgery, etc., 831
on pathology, 830
on respiration, 828
on vascular system, 828
- Erb's** palsy type of left-sided muscular wasting, case for diagnosis (S. R. Eastwood), 539
- Eruption**, recurring, ? artefact (G. B. Dowling), 1056
- Erysipelas** of auricle, 462
- Erythema** elevatum diutinum (previously shown) (W. N. Goldsmith), 803
induratum, chilblainy condition of legs somewhat resembling, two cases of, also a case of erythema induratum, for comparison (F. Parkes Weber), 799
on arms and legs, lupus erythematosus of scalp with scars of old papulo-necrotic tuberculide associated with (H. W. Barber), 1053
nodosum (?), case for diagnosis (W. N. Goldsmith), 349
leading to detection of latent hilus tuberculosis (F. Parkes Weber), 1049
multiforme, eruption provoked by light, 27
persistent, with ischaemic circulation, in the left foot, possibly in part connected with prolonged use of plaster bandage for tuberculous disease of left knee (F. Parkes Weber), 778, 1058
scarlatiniforme (E. G. G. Little), 1060
- Erythematosis** eruptions of ear, 466
- Erythrocytes** in stellate reticulum of enamel organ in human deciduous teeth, 418
- Erythrodermia**, lymphoblastic (J. H. Sequeira), 559
- Erythromelalgia**, ? case of, for diagnosis (J. A. Drake), 1342
- Ether**, administration in dental operations, 1298
amount required in dental operations, 1304
anaesthesia, death due to fat embolism in, 187
deep, arguments against, 186
four deaths under, details of conditions found, 186
increase of blood sugar during, 315, 316
teaching of, a question on: with a report on 4 deaths under (L. Mennell), 185-188
jactitation, 186, 188
- Ethmoid** carcinoma of, invasion of endocranium by, specimen showing (Dan McKenzie and G. Scott Williamson), 1087
healed fracture of, specimen showing (W. M. Mollison), 1638
injection of, as focus in retinal petechiasis, 610
- Ethmoidal** suppuration, case of (M. Fitzmaurice-Kelly), 1823
- Ethmoiditis**, orbital abscess and (T. B. Layton), 596
- Ethyl** chloride, administration in dental operations on children, 1303
sulphonal, 1481
- Enuresis**, nocturnal, light therapy in, 1527
- Eustachian** catarrh, chronic, use of Weber-Liel's intratympanic tube in (Sir J. Dundas-Grant), 626-628
- Evans**, E. Laming, C.B.E.—Fracture of transverse process of third lumbar vertebra, 883
- Evans**, F.—Discussion on use of insulin in surgical operations, 315
- Eve**, F. C.—Demonstration of clinical measuring instruments, 1415-1420
- Everidge**, J.—An unusual arrangement of double ureter, 717
discussion on diathermy, 764
Jackstone calculi, 717
- Exercises** graduated, importance of, in treatment of leprosy, 998
- Exophthalmic** goitre with ocular paresis (R. F. Moore), 1433
- Exophthalmos** cured by carotid ligature (St. J. D. Buxton), 1331
- Exostosis** arising in floor of the frontal sinus, two specimens of (W. Howarth), 1093
- Extradural** abscess following mastoid suppuration, case of (F. B. Gilhespy), 622
large, with collapse of lateral sinus and compression of left lobe of cerebellum (N. Rankin), 1447
- Extra-ocular** muscles, imbalance of, treatment of, changes in, 73
- Extremities**, gangrene of, discussion on, 481-492
- Exudation**, massive, in retina in a boy (D. C. L. Vey), 428
- Eye**, anterior chamber of, membrane in (C. Goulden), 1794
disease of, dental sepsis as cause of, 75
filtration angle of, lantern demonstration of (H. Herbert), 1795
- Eyes**, affections of, value of general light baths in, 1527
both, angioma of retina of (R. Lindsay Rea), 68
- Eyelid** and jaw, associated movement of (F. A. Juler), 1115
- right upper, neurofibromatosis of (M. L. Hine), 429
- Eyelids** and forehead, papular swelling on; ? colloidal milium (J. H. T. Davies), 1059
- Eyestrain**, prominent place of, in ophthalmology and general medicine, 71, 72
- Face** and cranial vault, widespread post-operative osteomyelitis of, arrest of (D. McKenzie), 223
cellulitis of, recurrent, two cases of (H. G. Adamson), 560
- Facial** and aural congenital mal-development in one of twins (F. Parkes Weber), 1193
asymmetry (P. G. Doyne), 82
cleft, hare-lip and ectropion (A. C. Hudson), 1436
hemiatrophy and persistent hiccough (C. F. T. East), 1325
paralysis during acute destruction of labyrinth, spinal accessory facial anastomosis for (C. Gill-Carey), 1138
five years after injury (F. B. Layton), 1138
following mastoid operations, hypoglossal-facial anastomosis for (L. Colledge), 1138
following successful trans-labyrinthine drainage for meningitis, glosso-pharyngeal facial anastomosis for (E. Watson-Williams), 1137
post-operative (D. McKenzie), 1137
traumatic, treatment of (E. F. Buzzard), 1133, 1134

- Factory clinic, organization of** (N. Howard Mummery), 817-823
 cost of, 823
 equipment and staff, 819
 factory doctor, 818
 functions of, 820
 keeping of records in, 822
 records of a year's work, 822, 823
 staff required, 819
- Fagge, C. H.**—Discussion on treatment of cleft palate by operation, 1933
- Fairbank, H. A. T., D.S.O.**—Discussion on treatment and results of fractures of upper end of femur in adults, 455
 on treatment of pes cavus, 1129
 unreduced dislocation of hip; late result of excision of head of femur (five years ago), 888
 unusual case of congenital coxa vara, 237
- Fairley, Hamilton.**—Method of complement fixation test in hydatid disease (quoted), 709
- Falling** on noise and surprise, case of (G. Holmes), 1840
- Familial** tendency in relation to breakdowns of middle life, 1034
- Faradic** current, surged, in restoration of muscular tone, value of, 111
- Fasciolic hepatica* infection of kangaroo, 556
- Fasciolopsis* (fluke), 551
- Fat embolism**, death due to, in ether anaesthesia, 187
- Fauces**, left anterior pillar of, left tonsil, tongue and lower jaw, epithelioma of (C. A. S. Ridout), 221
- Faulder, T. J.**—Case of enlargement of frontal bone, maxilla and mandible, 1771
- Fedden, W. Fedde.**—Case of birth injury, 1313
- Feet**, oedema of, bilateral, case of (R. C. Jewesbury), 535
- Felling, A.**—Discussion on value of recent methods of treatment in the late stages of ocular syphilis, 961-963
 two cases of familial pes cavus, with absent knee- and ankle-jerks (peroneal type of muscular atrophy), 1242
- Felis yaguarundi*, *Echinococcus oligarthrus* found in, 272
- Fell, Sir Matthew.**—Discussion on man-power and the medical services in relation to principles of war, 1710
- Femur**, absence of, congenital, case of (C. Max Page), 1313
 excision of head of, unreduced dislocation of hip a late result of (five years after) (H. A. T. Fairbank), 888
 fractures of upper end of, classification of, 442
 impacted, treatment of, 449
 in adults, after-treatment, 454
 extracapsular, 454
 intracapsular, 441, 455, 456, 458
 treatment by abduction, 457
 treatment by Hodgson's splint, 454
 treatment by Thomas's splint, 456
 use of Putti table in application of plaster, 455
 non-union of, causes predisposing to, 442
 treatment of, by abduction and fixation in plaster, 443
- Femur**, absence of, treatment of, by combined longitudinal and lateral traction, 443
 by operation, 446
 by simple extension, 443
 head of, partial excision of, 1469
 neck of, un-united fractures of, treatment of, 450
 Whitman's reconstruction operation for (Paul B. Roth), 889
 upper end of, imperfect development of, four cases of (Vera C. Veitch) 884
 in adults, fractures of (excluding the shaft), treatment and results of, discussion on, 442-458
 X-ray examination of, 457
- Fergus, A. Freeland.**—Mr. Percival Pott on the treatment of lachrymal fistula, 1692-1696
 some facts of peripheral vision, 1689-1692
- Ferrerolles, P.**—Discussion on the breakdowns of middle life, 1039
- Ferrier, Sir D.**—Discussion on effects of nerve anastomosis, 218
- Ferry and Fisher**, claim to isolation of specific virus of measles (quoted), 49
- Fevvers**, waves of, crests of, setting of influenza on, as seen in London "Bills," 1357
- Ffrench, E. G.**—Lupus erythematosus affecting fingers only, 558
- Fibroid** polypi of rectum and colon, 252
 tumour, intrathoracic, large, X-ray appearances of, 164
- Fibroma**, intrathoracic, X-ray appearances of, 157
 of thoracic wall, 162
 on anterior surface of left vocal cord (H. J. Banks-Davis), 600
- Fibromyoma** of uterus, leiomyosarcoma arising in (S. Gordon Luker), 867
 rupture of capsule, with protrusion of part of tumour, with secondary necrosis (S. G. Luker), 1657
 sarcoma with (S. Gordon Luker), 867
- Fibrosis**, non-tuberculous, 743
 pulmonary, preceding onset of pulmonary tuberculosis, 1030
- Field** vision and visual acuteness, differences between, 1690
- Filaria bancrofti*, 552
- Finger**, interphalangeal joint of, bony ankylosis of (B. W. Howell), 239
 swelling of (A. E. Mortimer Woolf), 1047
- Fingers**, lupus erythematosus affecting (E. G. Ffrench), 558
- Finney, John M. T.**—Pathogenesis of gastric and duodenal ulcer with consideration of general rules of treatment, 637-648
- Finzi, N. S.**—Discussion on cholecystography, 1203-1205, 1225
- Firth, D.**—Case for diagnosis (congenital heart disease), 6
 of hyperkinesis of doubtful origin, 1314
 of megalocolon, 530
 left recurrent laryngeal paralysis and mitral stenosis, 6
- Fish, E. W.**—Lymph supply of the dentine and enamel, 225-232, 234
- Fisher, J. Herbert.**—Discussion on value of recent methods of treatment in late stages of ocular syphilis, 951-956, 968

- Fistulae**, coccygeal, 251
 intestinal, in relation to urinary infections, 293
 in ano, extent of value of lipiodol in determination of extent of (L. E. C. Norbury and C. M. Morgan), 1274, 1275
 skin grafts for (W. B. Gabriel), 1278
- Fit**, epileptic, appearance of brain in, 856
- Fits**, case of (Gladys Wauchope), 1819
- Fitzmaurice-Kelly**, M.—Case of ethmoidal supuration, 1823
 of lateral spina bifida, 1823
 of torticollis, 1825
 of ventral hernia, 1825
- Fitzwilliams**, D. C. L., C.M.G.—Discussion on colostomy, 1462
 dislocation of cervical vertebra as result of a fall, 1191
- Flaps**, pedicle, use of, two cases illustrating (C. J. Marshall), 1316
- Flat-foot** in relation to climacteric arthritis, 518
- Flint**, E. E.—Discussion on pathogenesis of gastric and duodenal ulcer, 649
- Fog** in relation to incidence of pneumonia in Manchester, 1068
- Foot-and-Mouth** disease in cows, in relation to milk, 782
- Foot**, oedema of, intermittent, for diagnosis (C. C. Worster-Drought), 1046
- Forbes**, G.—Discussion on prophylaxis of measles, 1618
- Forceps**, haemostatic, used in enucleation of tonsils (L. G. Brown), 1400
- Ford**, Rosa.—Chronic double external ophthalmoplegia and ptosis as an isolated lesion, 1433
- Forehead**, abscess of, acute frontal sinusitis with (H. Kisch), 1640
- Foreign** bodies, causing chronic non-tuberculous infection of lung, 735, 747
 in bronchus (nut); skiagrams of chest shown (A. J. Wright), 1396
 in oesophagus, dysphagia for 3 months due to (C. Gill-Carey), 1095
 inhalation of, causing bronchiectasis or pulmonary abscess, 744
 swallowed by children, three cases of (G. Morgan), 1825
 removed from right bronchus (F. Rose), 591
- Formol-gel** test in trypanosomiasis, 973
- Fothergill**, letter of, on malignant sore throat, human and bovine (1747), (R. W. Innes Smith), 1380
- "Fourneau 309,"** identical with "Bayer 205," 976
- Fox**, R. Fortescue.—Discussion on the breakdowns of middle life, 1033-1035
 venesection in hyperpiesia and neuro-vascular hypertension, 1559-1568
- Fox**, W.—Case for diagnosis, 1347
- Fracture** of transverse process of third lumbar vertebra (E. Laming Evans), 883
- Fractures** of upper end of femur in adults (excluding the shaft) treatment and results of, discussion on, 442-458. See also under *Femur*
- Fragilitas** ossium and blue sclerotics, association of, 471, 472
- Frankau**, C.—Discussion on treatment of gangrene of extremities, 489
- Franklin**, P.—Case of auditory disharmony, 479
 case of persistent post-auricular pain, 617
- Fraser**, J. S.—Case of congenital (?) deafness with malformation of bony and membranous labyrinths on both sides. Epidiascope demonstration, 475-477
 discussion on otosclerosis associated with blue sclerotics and osteogenesis imperfecta, 474
 on progressive middle-ear deafness, 1854
- Freckles**, permanent, treated with pure carbolic acid, case of (A. C. Roxburgh), 352
- French**, H., C.B.E.—Discussion on blood-letting, 1556-1559
- Freud**, acquired homosexuality (quoted), 905
- Friedreich's** ataxy, case of (C. M. H. Howell), 1247
- Friel**, A. E.—Aural electrodes for use in treatment of chronic otorrhoea by zinc ionization and zinc electrolysis, 1874
- Fröhlich's** syndrome, case of (F. J. Poynton), 317
- Frontal** abscess; no headache, no localizing signs (E. B. Barnes), 1449
 bone, maxilla and mandible, enlargement of, case of (T. J. Faulder), 1771
 tumour of (W. Ibbotson), 1769
 sinus, floor of, exostosis arising in, two specimens of (W. Howarth), 1093
 hyperplastic bone from, specimen of (W. Howarth), 1092
 operation on, cure of chronic empyema of antrum after (H. Kisch), 1770
 new (H. A. Kisch), 220
 osteoma of (D. F. A. Neilson), 1093
 suppurative, acute; unusual variation in the anatomy (H. Bell Tawse), 219
 sinusitis, case of (J. A. Gibb), 1776
- Fry**, W. Kelsey.—Discussion on treatment of cleft palate by operation, 1935
- Fulguration** in treatment of haemorrhoids, 756
 operation of, 756
- Fundi**, pigmentation of, congenital (J. H. Gann), 1114
- Fundus oculi**, drawings of, illustrating dilatation of blood-vessels (R. Batten), 1688
- Fungi** affecting meatus wall, 460
- Furunculosis** of external meatus, 459, 464
 complications of, 460
 treatment discussed, 460
 (right ear) followed by necrosis of anterior bony wall of external auditory canal (N. Rankin), 1447
- Gabriel**, W. B.—Discussion on colostomy, 1452
 skin grafts for fistulae, 1278
 volvulus of pelvic colon and blind caecostomy, 1277
- Gait**, functional peculiarity of, in girl, with endocrine disorder (F. Parkes Weber), 778
- Gall-bladder**, malignant disease of, as cause of failure to attain shadow in, 1225
 radiography of, discussion on, 1203-1226
 X-ray appearances of, 1209, 1211, 1212, *et seq.*
- Gall-stone** shadows, importance of, 1208
- Galvano-cautery**, nodular laryngitis treated by, case of (Sir J. Dundas-Grant), 1397

- Gametocytes**, male and female, in human malaria, relative numbers of (*Plasmodium vivax*, *Plasmodium falciparum* and *Plasmodium malariae*) and *Hemoproteus* in birds (S. Annecke), 267-271
 of malaria, action of plasmochin on, 271
- Gamgee**, Katherine.—Discussion on uses and limitations of ultra-violet light therapy, 1527-1529
- Gangrene** of extremities, discussion on, 481-492
 peri-arterial sympathectomy in treatment of, detail of cases, 481, 483, 486, 487
 of leg and arm, case of (W. Broadbent), 1821

- Hare, Tom.**—Discussion on rheumatoid arthritis, 1734
- Hare-lip**, facial cleft and ectropion (A. C. Hudson), 1436
treatment of, relationship to treatment of cleft palate, 1911
- Harmer, Douglas.**—Discussion on diathermy, 760
- Harris, W.**—Juvenile tabes with rotatory nystagmus, 385
- Harrison, L. W.**—Discussion on value of recent methods of treatment in the late stages of ocular syphilis, 963-965
- Harrison, W. J.**—Two cases of laryngectomy, specimens shown, 1093
- Harvey, D., C.M.G., C.B.E.**—Discussion on trypanosomiasis in man and animals, 983
- Hasson, Dr.**—Discussion on treatment of leprosy, 1020
- Hastings, Somerville.**—Discussion on intra-thoracic new growths, 160-162
on progressive middle-ear deafness, 1855
- Hay, K. R.**—Case of acrocyanosis, 195
- Hayling Island and Alton**, basal metabolism in patients treated at, compared, 810
- Hearing**, analysis of, in progressive middle-ear deafness, 1845
resonance theory of, or only a resonance hypothesis; question as to (G. Wilkinson), 623-626
tests, response to, in middle-ear deafness, 1847
- Heart**, action of lobeline on, 699
action of, sensitiveness of, to interrupted currents, 109, 115
block, complete, case of (B. T. Parsons-Smith), 542
congenital heart disease and (J. L. Livingstone), 7
congenital malformation of, case of (D. Hall), 1820
disease, case for diagnosis (D. Firth), 6
hæmaturia associated with, 1293
rheumatic, hospital accommodation required for, 209
failure, endocardial, X-ray appearances in, 1062
muscle, bullet retained in, arterio-venous aneurysm with (E. G. Slesinger), 1326
over-distended, effect of venesection on, 1551, 1572
- Heat and light** treatment, progress in, 41
production of, as agent influencing physiological and therapeutic results of high-frequency currents, 113
- Heat-stroke**, venesection for, 1553, 1572
- Heiser-Mercado** treatment of leprosy, 1013
- Heliotherapy** in surgical tuberculosis, 808, 809
- Helminth** parasites of animals and human disease (T. W. M. Cameron), 547-556
biological strains, 551
in man and their animal hosts, table of, 554-556
man as an accidental definitive host of, 550

- Helminth parasites**, man as an intermediate host of, 547
 reservoir hosts, 551
 of exclusive human habitat, 552
- Helminthology**, comparative, problems of, 552, 553
- Hemiatrophy**, facial, and persistent hiccough (C. F. T. East), 1325
 right, case of (Sibyl R. Eastwood), 535
- Hemicystectomy** in treatment of malignant disease of bladder, 1283
- Hemiplegia**, contralateral, of sudden onset, probably embolic, thrombosis of subclavian artery, cervical rib (C. P. Symonds), 1244
 of sudden onset (E. Cautley), 317
 right-sided, and aphasia, child recovering from: attacks of Jacksonian epilepsy on right side (F. Parkes Weber), 80
 supervening upon an atrophic limb (S. A. K. Wilson), 381
- Henderson, P. H.**—Discussion on diet and disease in the Navy, 1168
- Henderson, J. Thomson.**—Discussion on the filtration angle of the eye, 1797
- Henry, T. A.**—Drugs used in the treatment of leprosy, 995
- Hepatic abscess**, amœbic, case of, treated as an out-patient with emetine only (V. S. Hodson), 1334
- Hepburn, M. L.**—Discussion on coloboma of the macula, 433, 440
- Herbert, H.**—Lantern demonstration of the filtration angle, 1795
- Hernaman Johnson, F.**—Discussion on cholecystography, 1221
- Hernia**, abdominal, in the Royal Navy (H. E. R. Stephens), 493-499
 etiology of, 496
 in Army, 501
 in the Royal Navy, statistics of, 495
 types of, and numbers of recurrences, 498
 age incidence of, civil and naval rate compared, 497
 post-operative, factors in causation of, 494
 in Royal Navy, 494
 ventral, case of (M. Fitzmaurice-Kelly), 1825
 complicating colostomy, 1456
- Herpes** zoster of auricle, 467
- Heterophoria**, testing for, use of Maddox rod in, 73
- Heterosexuality**, repression of, 907, 908
- Hewer, C. Laughton.**—Discussion on teaching of ether anaesthesia, 189
- Hexamin hæmaturia**, 1294
- Hey, Granville.**—Discussion on pathology of cesophagectasia, 1393
- Hiccough**, persistent, facial hemiatrophy and (C. F. T. East), 1325
- Higgins, T. Twistington.**—Congenital cystic hygroma, 326
 discussion on treatment of cleft palate by operation, 1938
 "winged" scapula, 321
- Higgs, S. L.**—Bilateral contracture of sternomastoid muscles, 1701
 discussion on treatment and results of fracture of upper end of femur in adults (excluding the shaft), 442-453
- High-frequency currents**, agent producing physiological and therapeutic results, 113
 at high tension, 107, 113
 at low tension, 107, 113
 improvements in technique of administration, 107
 in treatment of hæmorrhoids, value of, 34
 methods of employing, in surgery, 753
 of quantity, 107
 rectified, 108
 treatment by, progress in, factors governing, 33
- Hiles, Isa.**—Serological tests for hydatid disease, 703-713
- Hilton, R.**—Discussion on diagnosis and treatment of intrathoracic new growths, 179
- Hine, M. L.**—Neurofibromatosis of right upper lid, 429
- Hip-joint**, arthritis of, non-tuberculous, chronic, surgical treatment of, 1467
 arthrodesis of, 1468
 arthroplasty of, 1468
 deformity and dislocation of, from acute epiphysitis of infancy (A. H. Todd), 893
 disease of, treatment at a country children's hospital, 135
 treatment by traction with suspension, 135, 136
 dislocation of, unreduced; late result of excision of head of femur (five years ago) (H. A. T. Fairbank), 888
 operations on, after-treatment of, 1472
 technique of, 1470, 1471
- Hirschsprung's disease**; case of perforation of bowel in a baby (J. R. Griffith), 1824
- Hobday, F. T. G., C.M.G.**—Specimen of warty growth, 328
- Hobhouse, N.**—Spastic diplegia, 1317
- Hodgen's splint**, application in fractures of upper end of femur, 454
- Hodgkin's disease** (abdominal lymphogranulomatosis maligna) with very high blood-eosinophilia (F. Parkes Weber), 1337
- Hodgson, H. Graham and Watkyn-Thomas, F. W.**—Demonstration of radiograms of normal and abnormal labyrinth, 1858-1861
- Hodson, V. S., M.V.O.**—Case of amœbic hepatic abscess, treated as an out-patient with emetine only, 1334
- Holmes, Gordon.**—Case of crossed tremor, 1841
 case of falling on noise and surprise, 1840
 discussion on value of modern methods in treatment of ocular syphilis, 966
- Home, Sir Everard (1763-1832).**—First experiments on effect of light on the skin, 11, 12
- Home, Francis (of Edinburgh) (1719-1813)**, portrait of (W. E. Home), 584
 first introduction of active immunization against measles by (1758), 51
- Home, W. E., R.N.**—Discussion on blood-letting, 1571
 on diet and disease in the Navy, 1168
 on prophylaxis of measles, 1618
 on the influenzal constitution, 1365
 letter by Jenner and portrait of Francis Home of Edinburgh (1719-1813), 584, 585
- Homosexual inversion**, case of (T. A. Ross), 903

- Homosexuality**, acquired, 905
essentially hereditary physical nature of, 905
- Homosexuals**, two, progression and regression in (T. A. Ross and R. D. Gillespie), 903-917
anal obsession in, 904, 905, 915
- Horder**, Sir Thomas, Bart.—Medical aspects of hæmaturia, 1290-1295
- Horn**, sebaceous (E. Pearce Gould), 328
- Horne**, W. Jobson.—Epidiascope demonstration of chronic hypertrophic laryngitis and some observations on treatment, 1632
formation of a circumscribed interdural abscess at the site of saccus endolymphaticus, 1868-1871
- Horse**, hydatid in, 281
- Horsepox**, vaccine lymph produced from, successful use of, 587
- Horses**, knowledge of possessed by Xenophon, 85
- Hospital** accommodation in England and Wales, statistics of, 210
public health problems in relation to, 208
children's (country), orthopædics at (W. T. Gordon Pugh), 131-136
- Hospitals**, in relation to the Public Health (G. F. Buchan), 205-214
character of beds required, 211
infectious diseases, 205
legal powers, 213
maternity and child welfare, 207
method of provision of extra beds, 211
research and, 214
school medical work, 208
staffing problems, 213
venereal diseases, 208
- Howarth**, W.—Basal-celled carcinoma of larynx: recurrence after 5½ years, 1091
endothelioma of antrum apparently caused by radium. Recent local recurrence after 3 years, 1092
laryngeal lesion associated with apparent miliary tuberculosis of lung, 1088, 1768
oesophageal speculum with distal and proximal illumination, 1400
some points in the technique of laryngo-fissure, 1742-1744
specimen of hyperplastic bone from frontal sinus, 1092
two cases of chronic hyperplasia of superior maxilla, 1091
two specimens of exostosis arising in the floor of frontal sinus, 1093
- Howell**, B. Whitchurch.—Bony ankylosis of interphalangeal joint of finger, 239
discussion on treatment of chronic non-tuberculous arthritis, 1476
on treatment of pes cavus, 1129
- Howell**, C. M. Hinds.—Case of birth injury, 1246
of Friedreich's ataxy, 1247
- Hudson**, A. C.—Facial cleft, hare-lip and ectropion, 1436
- Hughes**, E. C., O.B.E.—Necrosis of skull, 775
three cases of arthroplasty for ankylosis of temporo-mandibular joint, 1042
- Human** disease, helminth parasites of animals and (T. W. M. Cameron), 547-556
- Humerus**, myeloma of (E. A. Crook), 1582
- Humours**, doctrine of the, views of Erasistratus on, 831
- Hunter**, D.—Mitral stenosis, tricuspid stenosis and incompetence; auricular fibrillation; varix of right external jugular vein, 336
- Hunter**, John, influence of, on profession of dentistry, 363
- Huntington's** chorea (L. Yealland), 369
- Hurst**, A. F.—Discussion on diagnosis and treatment of colitis, 367-375, 379
on migraine, 1106
- Hutchinsonian** lower incisors, 1541
teeth, percentage of, 1542
typical, features of, 1535
- Hutchison**, A. J.—Chart showing striking result of one injection of autogenous streptococcus vaccine, 1622
- Hutchison**, R.—Discussion on oral manifestations of systemic disease in children, 1538-1540, 1546
two cases of familial splenomegaly, 321
- Hyaline** bodies (Drusen) on optic disc (Ida C. Mann), 1687
- Hydatid**, alveolar, in man, 281
biological conceptions of, modern (T. W. M. Cameron), 272-283
bovine, comparison with alveolar hydatid in man, 282
cyst of left kidney (A. C. Morson), 719
structure of, 273
disease, Casoni (intra-dermal) reaction for, 712
complement-fixation test for, 708
infection of man in, 548
method of infection in, 548
precipitin test for, 711
prevalence of, 547
serological tests for (Isa Hiles), 708 713
in the horse, 281
life cycle of, 274
normal structure of, 273
vesicle, development of, 274
- Hydatids**, abnormal forms of, 279
daughter cyst formation, 276, 277
development of brood capsules and scolices, 275
formation of exogenous cysts, 278
formation of omental cysts, 276
granddaughter cysts, 279
in sheep, abnormal forms of, 279
in the ox, forms of, 280
in the pig, forms of, 280
omental cysts, 278
osseous, 279
recurrent cysts, 279
- Hydnocarpic** acid, chemical composition of, 995
- Hydnocarpus** oil, treatment of leprosy with, 991
- Hydroa** vacciniforme, 15
two different diseases confused as, 16
- Hydroceles** due to *Onchocerca volvulus*, characteristics of, 933
- Hydrocephalus** with syringomyelia and coarse tremor (fibrillation) of right hand, case of (C. P. Symonds), 1241
- Hydronephrosis** congenital (G. E. Neligan), 1806
of left kidney, due to stricture of pelvi-ureteral junction (D. S. Davies), 722
- Hygiene**, views of Erasistratus on, 831
- Hygroma**, cystic, congenital (T. T. Higgins), 326
Hymenolepis nana, 547, 552
- Hyperkinesis** of doubtful cause, case of (D. Firth), 1314

- Hyperpiesia** and neuro-vascular hypertension, venesection in (R. Fortescue Fox), 1559-1568
in middle life, 1030
condition of, experiments elucidating, 1031, 1032
in middle life, balneological treatment of, 1033
- Hyperplasia**, chronic, of upper jaw (F. B. Gilhespy), 1739
- Hypertelorism**, 1749
bilateral ulnar neuritis in association with, skeletal deformities and (C. P. Symonds), 1241
two cases of (W. G. Wyllie), 324
- Hypnosis** and suggestion, physiological basis of (S. R. Wilson), 503-509
a reflex action, 503
phenomena of, difficulties in investigation of, 507
different degrees of, 507
- Hypnotic** drugs of barbituric acid and sulphonal groups, clinical and pathological effects of, 1479-1506
examples of, 1480
history of, 1495, 1496
poisoning by, index to cases of, 1499, 1502
sulphonal group of, examples of, 1481
habit, danger of, 1481
- Hypoderma* spp., 549
- Hypoglandular** arthritis, 513, 519, 521, 522
- Hypoglossal** facial anastomosis for facial palsy following mastoid operations (L. Colledge), 1138
- Hypoglossal** nerve involvement, two cases of, for diagnosis (C. Worster-Drought), 385
- Hypothalamic** region, anatomical relations of, 1644
- Hypothyroidism** in relation to climacteric arthritis, 510, 511, 519
stigmata of, 521
- Hypotonic** child, light in treatment of, 1521
- Hysterectomy**, removal of ovaries during, 119
- Hysteria**, relation of, to epilepsy, 853
- Hysterical** spastic aphonia, case of (Sir J. Dundas-Grant), 1639
- Ibbotson**, W.—Intralaryngeal tumour in a baby, aged 14 days, 1769
neuro-fibro-sarcoma, 224
tumour of frontal bone, 1769
tumour of naso-pharynx: case for diagnosis, 1769
- Ichthyosis** and cancer of skin, with special reference to mulespinners' cancer (L. Savatard), 1589-1595
incidence of, 1593
- Ileo-cæcal** tuberculosis, 654
- Ileum**, necrosis and perforation of, spirochaetic infection with (W. Broughton-Alcock), 704, 705
- Immunity** reactions following chemotherapy, 794
- Immunization** against certain infectious diseases (S. M. Copeman), 43-51
against diphtheria; early experiences with, 43
measles, method of, 49
scarlet fever, 46, 51
bacterial, mechanism of, 139
prophylactic and therapeutic, modern trend of, and its interpretation (J. McIntosh), 137-146
specific, 139
therapeutic, review of, 138
- Impetigo** contagiosa of outer ear, treatment of, 463
- Incisors**, lower, Hutchinsonian, 1541
- Infantile** paralysis, sexual precocity with (W. H. Ogilvie), 330
- Infantilism** (Lorain type), case of (C. Worster-Drought and B. W. C. Archer), 771-773
of rheumatic origin, case of (G. L. Lyon Smith) 1822
- Infants**, maxilla of, osteomyelitis of, 1531
- Infectious** diseases, hospital accommodation required for, 205
hospitals for, pavilions attached to, 214
Diseases Notification Act (1889), diseases notifiable under, 205
- Inferiority**, feeling of, and the striving for recognition (A. Adler), 1881-1886
- Influenza**, appearances of, in crests of waves of fever, London death rates in registration times illustrating, 1362
endemicity of, factors of season of year and degree of intercommunication, 1360
evolutionary development of, in fifteenth and twentieth centuries, tabular outline of, 1359, 1360
setting of "correlativity" of certain (symptom-complex) opposites in relation to, 1360, 1361
- Influenzal** constitution (Sir W. Hamer), 1349-1364
conception of, historical development of, 1353
et seq
evolutionary development of, 1354
- Ingram**, J. T.—Grouped comedones, 1346
keratosis pilaris, 1345
unusual type of nevus, 561
- Inheritance** in epilepsy, 860, 864
- Innervation** of teeth, some aspects of (D. Stewart), 1675-1686
- Innominate** artery, aneurysm of; spontaneous disappearance of swelling in neck (D. Krestin), 1327
- Insulin**, influence of, upon acute suppuration of middle ear in a glycosuric patient, case showing (D. McKenzie), 1445
in surgical operations, use of (H. MacLean), 309-316
value of, in operations on non-diabetic patients, 314
- Interarytænoid** space, excrescences on, 1632
at site of vocal processes, 1635
differential diagnosis of, 1633
- Internal** secretions of the ovary (A. S. Parkes), 1663-1667
- Interphalangeal** joints of left thumb and middle finger, proliferative changes in, acromegaly of; (?) traumatic origin with (F. E. Saxby Willis), 540
- Interstitial** keratitis in congenital syphilis, treatment of, statistics before and after 1910, 964
value of recent methods of treatment of, 953, 954
- Intestinal** bacteria, anaerogenic, a little-known group of (A. Castellani), 1261-1268
fistule in relation to urinary infections, 293
obstruction, complicating colostomy, 1455
tuberculosis, see *Tuberculosis*, intestinal
- Intestine**, bacterial flora of, present in urinary infections, 286

- Intestine**, normal, of rat, compared with that of rat fed on deficiency diet 1715, 1718, 1727, 1728
small, prolapse of, complicating colostomy, 1455
- Intracranial** complication of aural suppuration (E. B. Barnes), 1879
pressure of doubtful origin, psychosis showing recovery after relief of (M. Barkas), 631
tumours, clinical study of, and especially of some errors in their diagnosis (Sir J. Purves Stewart), 57-64
see also *Brain*, tumours of
- Intralaryngeal** tumour in a baby, aged fourteen days (W. Ibbotson), 1769
- Intra-ocular** hæmorrhage, recurrent, in a young male (H. M. Gilmour), 1111
- Intrapulmonary** cyst? (E. Cautley), 318
- Intrathoracic** fibroid tumour, large, X-ray appearances of, 164
new growths, clinical manifestations of, 182
diagnosis and treatment of, discussion on, 151-184
illustrative cases with X-ray illustrations, 155-160
malignant, incidence of, 163
modes of access to, 154
treatment by radium and X-rays (R. Knox), 167-179
technique, 168
- Intratympanic** tube, Weber-Liel's, use of in chronic Eustachian catarrh (Sir J. Dundas-Grant), 626-628
- Intubation** in treatment of cancer of œsophagus, 241, 247
- Ionization**, want of knowledge respecting processes of, 114
- Iritis**, syphilitic, secondary, injection treatment of, value of, 953
- Ivy**, classification of theories of pathogenesis of gastric and duodenal ulcers (quoted), 642, 643
- Jackstone** calculi (J. Everidge), 717
- Jacksonian** epilepsy, hæmangioma causing (C. P. G. Wakeley), 545
tumour of skull (C. F. T. East), 2
- Jameson**, G. D.—Discussion on diet and disease in the Navy, 1167
- Jaundice** family, acholuric (K. H. Tallerman), 1582
following use of cinchophen, 264, 265
- Jaw** and lid, associated movement of (F. A. Juler), 1115
lower, left tonsil, left anterior pillar of fauces and tongue, epithelioma of, (C. A. S. Ridout), 221
upper, chronic enlargement of (F. B. Gilhespy), 1739
(G. W. Badgerow and F. C. Ormerod), 1779
osteomyelitis of, in scarlet fever (T. B. Layton), 1430-1432
tumour of, originating in maxillary sinus, and non-malignant stricture of œsophagus (T. B. Layton), 594
- Jaws**, localized suppuration in connexion with, without signs of dental infection, in children, 1533
manifestations of general diseases in, 1538
osteomyelitis of, following scarlet fever in children, 1534
- Jeans**, F. A. G.—Discussion on pathogenesis of gastric and duodenal ulcer, 649
- Jenkins**, G. J.—Discussion on otosclerosis associated with blue sclerotics and osteogenesis imperfecta, 474
on progressive middle-ear deafness, 1848
on treatment of traumatic facial paralysis, 1136
- Jenner** (Edward), eighteen letters by, written to Alexander Marcet between the years 1803-1814, presented to the Library of the Royal Society of Medicine by Dr. William Pasteur (W. G. Spencer), 587-590.
early and late opinions of (quoted), 589
letter by (W. E. Home), 584
works of, extracts from, 588
- Jewell**, W. H.—(?) Adenoma of the parotid, 224
fibromata (or ? papilloma) of larynx, 1779
tumour of submaxillary gland, 601
ulceration of vocal cord (? malignant), 1398, 1630
- Jewesbury**, R. C.—Case of anæmia, 1321
of bilateral œdema of feet, 535
tumour in the kidney region, case of, 537
two cases of spasmodic structure of œsophagus, 1310-1312
- Jobson**, T. B.—Case of fracture of larynx, 1778
deafness due to occlusion of external auditory meatus caused by external otitis. Operation to restore patency of left meatus resulting in greatly improved hearing, 1873
double recurrent paralysis cured by tuberculous glands, 1628

erythematous affecting fingers only (E. G. Ffrench), 558
(?) case for diagnosis (M. S. Thomson), 1833
effects of light upon, 25, 26
of ear, 466
of scalp, associated with scars of old papulo-necrotic tuberculide lesions and of erythema induration of arms and legs (H. W. Barber), 1053
treated by krysolgan (H. C. Semon), 566, 1339
extensive, of upper air passages treated by radium (H. M. Wharry), 1402
healing of, by general light treatment, 1526
pernio of ears, 467
vulgaris disseminatus (H. MacCormac), 803
effect of light on, 26
of ear, 467
with epithelioma (H. MacCormac), 351
Lycan capensis, *Echinococcus longimanubrius* found in, 272
- Lymph**, circulation through dentine, 233
intrinsic circulation in tooth, 226
movements from lymph plexus outwards towards enamel and cement, 228
supply of dentine and enamel (E. W. Fish), 225-232
supply of tooth-, association with that of the surrounding alveolus, 231
- Lymphadenosis**, aleukæmic (F. Parkes Weber), 543
- (?) **Lymphangioma**, case for diagnosis (M. S. Thomson), 352
- Lymphangioma** of tongue (A. E. M. Woolf), 327
- Lymphoblastic erythrodermia** (J. H. Sequeira), 559
- Lymphocytes** (?) in stellate reticulum of enamel organ in human deciduous teeth, 418
- Lymphocytosis**, chronic, in old man, chronic relapsing pemphigus or dermatitis herpetiformis with (F. Parkes Weber), 1057
- Lymphogranuloma**, benign (Schaumann), (H. W. Barber), 1344
(Boeck's sarcoid), two cases treated by intra-muscular injections of sodium morrhuate (H. W. Barber), 347
- Lymphogranulomatosis** maligna (Hodgkin's disease) with very high blood-eosinophilia (F. Parkes Weber), 1337

 chronic, hæmaturia in, 1292
 interstitial, chronic; a renal dwarf (W. G. Wyllie), 326
 scarlatinal, prevention of (H. Carter and A. A. Osman), 1405-1407
 uræmic states following, venesection for, 1551
 subacute, due to "Bayer 205," 977
- Nepbro-ureterectomy**, primary, indications for: the stump of the ureter after nephrectomy (F. Kidd), 1813-1817
- Nerve** anastomosis, effects of, on the movements of the vocal cords and diaphragm, cinematograph demonstration (Sir C. Ballance and L. Colledge), 217
 glosso-pharyngeal-facial, 1439
 disease, similarity of vitamin B deficiency to, 1717
 lesions in leprosy, treatment of, 1000
 or muscle, "chronaxie" of, 105
 threshold of excitation or single rheobase of, 105
- Nerves**, sensory, therapeutic action of interrupted currents on, 110
 sympathetic, effects seen after cutting, 1799
- Nervous** or endocrine sympathetic systems, diseases of, due to toxins from infective focus, with skin changes secondary to, 1428
 system, changes in, due to barbituric acid and sulphonal, 1479
 lesions of, affections of micturition resulting from (F. J. F. Barrington), 722
 causing glycosuria, 1650
- Neuritis**, treatment by application of Ledue currents, 110
- Neurofibromatosis** of right upper lid (M. L. Hine), 429
- Neuro-fibro-sarcoma** (W. Ilbottson), 224
- Neuro-muscular** mechanism, normal and abnormal, difference in quickness of excitability in electro-therapy, 105
- Neurosypphilis**, case of, for diagnosis between interstitial and parenchymatous forms (W. Moodie), 634
 vascular and parenchymatous, combined (C. M. Wilson), 384
- Neuro-vascular** hypertension, venesection in (R. Fortescue Fox), 1559-1568
- Nicoll**, W.—Discussion on helminth parasites of animals and human disease, 556
 on onchocerciasis, 936
- Nipple**, Paget's disease of (H. Davis), 346
- Nitch**, C. A. R.—Closed renal tuberculosis, 719
 discussion on treatment of cleft palate by operation, 1930
- Nitrous oxide** and air (or oxygen), inhibition of conscious brain by, 507, 508
 when to be administered in dental operations, 1299
- Norbury**, L. E. C., O.B.E.—Discussion on colostomy, 1460
 on innocent tumours of rectum and colon, 255
 and **Morgan**, C. N.—Value of lipiodol in determining the extent of fistule-in-ano, 1274, 1275
- Northcote**, Muriel L. M.—Two cases of nervous disorder, 1826
- Nose**, accessory sinuses of, as focus of infection in retinal petechiasis, 610
- Nose**, brain-tissue within, occurrence of: the so-called nasal glioma (D. Guthrie and N. Dott), 1749-1762
 records of cases and references, 1760-1762
 pharynx, epiglottis and larynx, chronic diffuse tuberculosis of, case of (C. A. S. Ridout), 594
 tumour of (G. W. Dawson), 1093
- Nott**, H. W.—Discussion on migraine, 1108
- Nystagmus**, clinical types of, 1409
 "Eisenbahn," 1409
 optic (E. A. Carmichael), 1409-1415
 optical, induction of, with simple apparatus, demonstration of (Sir J. Dundas Grant), 1450
 rotatory, juvenile tabes with (W. Harris), 385
- Obesity**, diverticulosis and, 674
 lesions of tuber cinereum in relation to, 1654
- O'Brien**, R. A.—Discussion on serum treatment of scarlet fever, 1175, 1184
- Ocular** paresis, exophthalmic goitre with (R. Foster Moore), 1433
 syphilis, late stages of, value of recent methods of treatment in, discussion on, 951-970.
 See also under *Syphilis*
- Oculist**, intending, progress in education of, 76
- Oddy**, H. M.—Discussion on uses and limitations of ultra-violet light therapy, 1520-1522, 1530
- Œdema** of feet, bilateral, case of (R. C. Jewesbury), 535
 of foot, intermittent, for diagnosis (C. C. Worster-Drought), 1046
- Œsophageal** speculum with distal and proximal illumination (W. Howarth), 1400
- Œsophagectasia** (dilatation of œsophagus without anatomic stenosis at cardiac orifice), pathology of (Irwin Moore), 1383-1393, 1780
 five specimens of (Irwin Moore), 1383-1393
 microscopical note and summary of cases, 1393
- Œsophago-gastrostomy** (G. Grey Turner's case), 1392
- Œsophagostomum apistomum**, 556
- Œsophagus**, cancer of, treatment of, by excision, 243
 choice of operation, 245
 details of three successful cases, 243, 244
 factors influencing prognosis of, 246
 by radium, 242
 discussion on, 241-249
 palliative, 241
 psychological considerations, 241, 242
 dilatation of, fusiform, 1387, 1388, 1390
 hypertrophy of muscular coat in, 1391
 idiopathic, 1384, 1386
 resulting from cardiospasm, specimen of, 1384, 1385
 specimen of, description of, 1383, 1385
 S-shaped, 1387, 1389, 1390
 three varieties or degrees of, 1390
 without anatomic stenosis at cardiac orifice (œsophagectasia), pathology of (Irwin Moore), 1383-1393, 1780
 foreign body in, dysphagia for 3 months due to (C. Gill-Carey), 1095
 growths of, treatment by diathermy, 766

- Esophagus**, stricture of, non-malignant, with tumour of upper jaw originating in maxillary sinus (T. B. Layton), 594
 spasmodic, two cases of (R. C. Jewesbury), 1310-1312
- Ogilvie**, W. H.—Case of sexual precocity with infantile paralysis, 330
 superficial abscess of brain, 1147
 tumour of calf, 544
 and **Willis**, F. E. Saxby.—Radicular paresis of right hand associated with abnormal bone formation of seventh cervical vertebra and Sprengel's shoulder, 540
- Oils**, vegetable, and their derivatives, treatment of leprosy with, 991
- Oligodendroglioma** of floor of third ventricle (W. E. C. Dickson), 393
- Oligo-ponto cerebellar atrophy** (F. M. R. Walshe), 1248
- Ollerenshaw**, R.—Discussion on treatment of pes cavus, 1126
- O'Malley**, J. F.—Discussion on progressive middle-ear deafness, 1856
- Onchocerca cecutiens** (Brumpt, 1919), 931
volvulus, 927, 929
 characteristics of hydroceles due to, 933
 larvæ and ova of, found in tumours, 931
 relationship to elephantiasis of scrotum, 932
 toxæmia due to, 932
- Onchocerciasis** (N. A. Dyce Sharp), 927-936
 aetiology, age, race and sex, 928
 definition of, 928
 description of tumours in, 929, 930
 epidemiology of, 928
 geographical distribution of, 928
 lunar periodicity in, 933
 pathology of, 929
 prophylaxis in, 936
 secondary symptoms in, 931
 symptomatology of, 933
 treatment of, 936
 by intravenous injection of "B. 1916," 935
 tumour formation, a late result, 931
 tumours in larvæ and ova found in, 931
- Oöcysts** of a coccidium in feces of laboratory and wild rats (M. A. Azim), 701-704
 commentary and discussion on, 703
 of rabbit, mouse and rat, comparison of, 704
- Ophthalmia neonatorum**, hospital accommodation required for, 206
- Ophthalmology**, progress in (E. Clarke), 70-78
 alterations in nomenclature in, 75
 importance in bacteriology, 74
 in education of intending oculist, 76
 in instruments and equipment, 76, 77
 in methods of diagnosis and treatment, 73
 medical and surgical, 75
 necessity for research workers, to aid, 78
 vaccine therapy, 74
 question of high and low blood-pressure in relation to, 77
 ultra-violet light as adjuvant to, 73
 value of slit lamp in, 77
- Ophthalmoplegia**, external, double, chronic, and ptosis as an isolation lesion (Rosa Ford), 1433
- Optic atrophy** and recent psychosis, juvenile tabes with: probably general paralysis (A. Randle and E. Mapother), 629
- Optic atrophy**, double, dyspituitarism with (? cause) (D. McAlpine), 1839
 disc, cysts on (G. G. Penman), 1436
 hyaline bodies (Driksen) on (Ida C. Mann), 1687
 mass obscuring (J. F. Cunningham), 430
 nystagmus (E. A. Carmichael), 1409-1415
 experimental production, methods of, 1409, 1412
 lesions concerned in, 1410, 1411
 induction of, with simple apparatus, demonstration of (Sir J. Dundas-Grant), 1450
- Oral** manifestations of congenital syphilis, 1534
 of systemic disease in children, discussion on, 1531-1546
- sepsis**, disease of skin caused by, 1427
 effect on digestive processes in relation to infections, 1427
 lowered resistance due to, predisposing to skin infections, 1428
- Orbit** and certain nasal sinuses, tumour involving (J. A. Gibb), 1628
 exenteration, for perforating melanotic sarcoma (Ida C. Mann), 1436
 phlegmon of: sinusitis with complications (J. A. Gibb), 1776
 sarcoma of, spindle-celled (J. Cole Marshall), 879
- Orbital** abscess, acute frontal sinusitis associated with (M. Vlasto), 597
 abscesses and ethmoiditis (T. B. Layton), 596
- Ormerod**, F. C.—Intractable forms of dermatitis of external ear in cases of chronic suppurative otitis media, 468-470
 and **Badgerow**, G. W., C.M.G.—Chronic enlargement of upper jaw, 1779
- Orthopedics** at a country children's hospital (W. T. Gordon Pugh), 131-136
 after-care in, 136
 appliances used, 133
 gymnastic exercises for recumbent patients, 133
- Orthopedic** cases, hospital accommodation required for, 209
- Osman**, A. A.—Case for diagnosis, 1041
 chronic renal disease with bony changes, 1041
 and **Carter**, H.—Prevention of scarlatinal nephritis, 1405-1407
- Osteo-arthritis**, aetiology of, endocrine factors in, 513
 association of, with endemic goitre, 512
 choice of operation in, 1467
 incidence in males in Lancashire, 520
 surgical treatment of, 1466
- Osteogenesis imperfecta** and blue sclerotics, otosclerosis associated with (F. J. Cleminson), 471-473
 See also *Fragilitas ossium*
- Osteoma** of frontal sinus (D. F. A. Neilson), 1093
- Osteomyelitis** of astragalus, old case of (P. Turner), 327
 of jaws following scarlet fever in children, 1534
 of maxilla in infants, 1531
 of upper jaw in scarlet fever (T. B. Layton), 1430
 post-operative, widespread, of face and cranial vault, arrest of (D. McKenzie), 223
 three cases of (J. R. Griffith), 1822
- Osteoporosis**, arthritis and, case of (L. S. T. Burrell), 2

- Osteotomy**, in treatment of pes cavus, 1123
- Otitis**, external, desquamative, 460
 media, suppurative, chronic, intractable forms of dermatitis in (F. C. Ormerod), 468
- Otitis**, external, causing occlusion of external auditory meatus and deafness. Operation to restore patency of left meatus resulting in greatly improved hearing (T. B. Jobson), 1873
- Otomycosis**, 460
- Otorrhœa**, chronic, acute lateral sinus thrombosis following (J. A. Gibb), 1877
 treatment of, by zinc ionization and zinc electrolysis, aural electrodes for use in (A. R. Friel), 1874
- Otosclerosis**, aetiology of, discussed, 473, 474
 associated with blue sclerotics and osteogenesis imperfecta (F. J. Cleminson), 471-473
- Ovarian carcinoma** with peritoneal metastases, treated by transfusion of maternal blood and injections of radiated ascitic fluid, case of (H. B. Whitehouse), 407
 cycle in lower animals, 1663, 1664
 pregnancy, early case of (S. Gordon Luker), 868
- Ovaries**, removal of, when hysterectomy is performed, 119
- Ovary**, endometrioma of (A. L. McIlroy), 117
 internal secretions of (A. S. Parkes), 1663-1667
 oestrus-producing hormone of, 1665
- Owl**, tame, pecten in, demonstration of (E. Clarke), 1437
- Ox**, hydatid in, forms of, 280
Oxyuris vermicularis, 552
- Pachydermia laryngis verrucosa**, 1632
- Padua**, University of, 'Collegio Veneto Artista' in, English physicians 'Doctorati' at (1617-1771) (E. Morpurgo), 1369-1380
- Page**, C. Max, D.S.O.—Case of congenital absence of femur, and case of effusion into knee-joint, 1313
 discussion on surgical treatment of chronic non-tuberculous arthritis, 1466-1474
- Paget's disease** of nipple, case of (H. Davis), 346
 with calcification of arteries, case of (C. F. T. East), 4
 with renal calculi (C. P. G. Wakeley), 544
- Pain**, diathermy current in treatment of, 112
- Palate**, adenomata of, mucous, case for diagnosis (J. E. M. Wigley), 1059
 growth of (H. B. Tawse), 1631
 for diagnosis and treatment (H. B. Tawse), 1394
 hard, perforation of (A. L. Macleod), 594, 1096
 previously shown (H. Bell Tawse), 218
 syphilitic ulceration of, 1542
- Panniculitis**, localized, associated with climacteric arthritis, 515, 520
- Papillæ**, hypertrophied, of rectum and colon, 250
- Papilledema**, homolateral, only localizing sign in large temporo-sphenoidal abscess following injury (E. B. Barnes), 1153
- Papilloma**, infective, of rectum and colon, 251
 meatal, tuberculous epidiymitis with (R. R. Macintosh), 777
 of bladder, removal of, 1281, 1282
 of larynx, suspected, case for diagnosis (N. S. Carruthers), 1774
- Papilloma** of Stenson's duct followed by great enlargement of parotid gland: case for diagnosis (H. N. Barnett), 1773
- Paralysis**, facial, traumatic, treatment of (E. F. Buzzard), 1133, 1131
 general, treated by the organism of relapsing fever (W. Moody), 633; (W. S. Dawson), 635
 with "déjà vu" phenomenon (W. S. Dawson), 634
 of serratus magnus, two cases of (C. Worster-Drought), 330
 periodic, familial case of (W. J. Adie), 1837
- Paranoid psychosis**, psychopathological development of (R. D. Gillespie), 909
- Paraplegia**, recent onset of, congenital deformity or old injury to cervical spine (W. J. Adie), 1838
- Parapsoriasis** of mixed type, case of (J. M. H. MacLeod and J. E. M. Wigley), 344
- Parasites**, helminth, of animals and human disease (T. W. M. Cameron), 547-556
 of man, origin of, 552-554
 reaction of, to chemotherapeutic substances, *in vitro* and *in vivo*, 790
- Parathyroid tablets** combined with calcium salts, in pyorrhœa, 233, 234
- Parathyroidectomy**, partial, influence on calcium metabolism, 233
- Paresis**, spastic, of one leg (C. C. Worster-Drought), 1326
- Parfitt**, J. B.—Discussion on lymph supply of dentine and enamel, 234
 on oral manifestations of systemic disease in children, 1540
- Parish**, H. J.—Discussion on serum treatment of scarlet fever, 1183
- Parker**, W. Kitchen.—Work as a comparative morphologist, 88
- Parkes**, A. S.—Internal secretions of ovary, 1663-1667
- Parkinson**, J.—Discussion on X-ray studies of cardio-vascular syphilis, 1063
- Parotid**, (?) adenoma of (W. H. Jewell), 224
 cyst (P. Turner), 771
 enlargement of, "seasonal," two cases of (P. Turner), 773
 gland, great enlargement of, following papilloma of Stenson's duct, case for diagnosis (H. N. Barnett), 1773
 tumour probably arising in right supratonsillar fossa, specimen, with microscopic slide (C. G. Russ Wood), 592
- Parsons-Smith**, B. T.—Complete heart-block, 542
 complete transposition of viscera with cardiac complications, 1333
 mediastinal tumour with chylothorax, 191
- Patella**, fractured, treated by wiring in 1889 (P. Turner), 1325
- Paterson**, H. J.—Discussion on pathogenesis of gastric and duodenal ulcer, 651
- Pathology**, views of Erasistratus on, 830
- Paton**, Leslie.—Deep infiltration of cornea, (?) in Descemet's membrane, 1437
 peculiar opacity of cornea, 1111
- Patterson**, N.—Epithelioma of tonsil in a woman, 221
 lymphosarcoma of tonsil and tongue with glandular involvement, 1095

- Patterson, N.**—Tracheotomy tube removed from woman aged 58, after being present 18 months, 1629
- Patterson, S. W.**—Discussion on climacteric arthritis, 525
on X-ray study of cardio-vascular syphilis, 1064
- Pauchet, V.**—Discussion on diverticulitis, 687
- Pavillons**, provision in hospitals for infectious diseases, 214
- Payne, J. Lewin.**—Discussion on unerupted teeth, 605
- Peace time military surgery** (J. W. West), 299-307
objects of, 299
treatment of gastric and duodenal ulcer, 300
- Peasant's neck**, 22, 23
- Pecten** in a tame owl, demonstration of (E. Clarke), 1437
- Pelvic colon**, volvulus of, and blind cæcostomy (W. B. Gabriel), 1277
- Pelvis and ureter**, villous tumour of (J. S. Joly), 1805
- Pelvi-ureteral junction**, stricture of, hydro-nephrosis of left kidney due to (D. S. Davies), 722
- Pemphigus**, acute, of the conjunctiva (M. S. Mayou), 427
of conjunctiva, mouth, pharynx and groin, (E. G. G. Little), 353
relapsing, chronic, or dermatitis herpetiformis in an old man with chronic lymphocytosis (F. Parkes Weber), 1057
(?) vegetans (S. E. Dore), 1599
- Penman, G. G.**—Cysts on optic disc, 1436
- Pensions**, Great War and South African War, expenditure by State compared, 1706
- Peri-arterial alcohol injection** in treatment of gangrene, 486
sympathectomy, details of cases, 482, 483
in treatment of gangrene, value of, 481, 484
rationale of operation, 481
- Perineal prostatectomy**, technique of, 1812, 1813
- Periostitis of metatarsal** (?) case of (A. Todd), 1700
- Peripheral choroiditis**, cases of (J. C. Marshall), 65-68
nerves, lesions of, affections of micturition resulting from, 723
vision. See under *Vision*
- Perisinus abscess**, mastoiditis with, and lateral sinus thrombosis, presenting unusual features, case of (L. Powell), 618
- Peristaltic wave**, absence of, in rats fed on deficiency diet, 1714
- Peritonitis complicating colostomy**, 1455
tuberculous, inflammatory plastic peritonitis simulating, case illustrating, 661
prognosis of, 660
statistics from St. Thomas's Hospital, 660
symptomatology of, 660
treatment of, 662
varieties of, 653
- Peritonsillar forceps** (A. Wylie), 1640
- Pernet, G.**—Discussion on treatment of leprosy, 993
- Perrin, W. S.**—Ectopic kidney with triple ureter, removed from a man, aged 41, 1806
normally placed right kidney possessing two pelves and two ureters opening separately into the bladder, the centre part of the kidney between the pelvis being occupied by a Grawitz tumour, 1807
- Peruvian Andes**, mummy from, description of, 845
- Pes cavus**, aetiology of, 1117
associated with calcaneus, 1125
clinical types of, 1120
familial, with absent knee- and ankle-jerks (peroneal type of muscular atrophy), two cases of, (A. Feiling), 1242
mechanism of, 1117
of moderate degree, treatment of, 1120
of severe degree, treatment of, 1122
of slight degree, treatment of, 1120
shortening of tendo Achillis in, 1125
treatment of, discussion on, 1117-1132
by Steindler's operation, 1129, 1130
by transplantation of extensor tendons, 1127-1130
- Petechiasis**, retinal, a clinical entity of auto-intoxication (H. M. McCrea), 607-614
- Peters, E. A.**—Discussion on dermatitis of outer ear, 470
- Peters, R. A.**, discussion on rheumatoid arthritis, 1732
- Petit's eventratio diaphragmatica**, (C. B. Levick), 1318
- Phanodrom**, barbituric acid compound, 1480
- Pharyngeal diverticulum** (H. Kisch), 1623
- Pharynx**, epiglottis, larynx and nose, chronic diffuse tuberculosis of, case (C. A. S. Ridout), 594
fibroma of, with malignant changes at its base, (V. E. Negus), 1630
groin, conjunctiva and mouth, pemphigus of, (E. G. G. Little), 353
- Phenolsulphonaphthalein** test of renal function, 1809
- Phenoquin** in treatment of gout, 260
- Phillipine Islands**, leprosy in, present treatment and results, statistics of San Lazaro Hospital, Cebu Detention Camps and Culion Leper Colony, 1013-1016
previous system of treatment of, 1013
- Phillips, L.**—Spontaneous separation of cervix in labour, 1659
- Phlebotomy**, mediæval, 1548. See also *Blood-letting* and *Venesection*
- Phlegmon** of orbit: sinusitis with complications (J. A. Gibb), 1776
- Phrenic nerve**, paralysis of, in intrathoracic new growths, value in diagnosis, 179
- Physaloptera caucasica*, 556
- Physico-chemical** action of interrupted currents in relation to their therapeutic effects (W. J. Turrell), 103-113, 116
- Pickerill, H. P., C.B.E.**—Non-eruption of teeth, 603-605
- Pickworth, F. A.**—Hypnotic drugs of barbituric acid and sulphonal groups, 1486
- Fig**, hydatid in, 280
- Pigmentation** in light therapy, 1520
of unknown origin, case of (H. Davis), 92
role of, in light treatment, 811, 814, 815
two cases of, (1) argyria (2) pigmentation of unknown origin, 92
- Pines, Dr. (Kieff).**—Discussion on value of modern methods in treatment in late stages of ocular syphilis, 964
- Pin-pricks**, sensation for, testing of, 1415
- Plitts, A. T., D.S.O.**—Discussion on oral manifestations of systemic disease in children, 1531-1538, 1545

- Pitts**, A. T., D.S.O.—Discussion on treatment of cleft palate by operation, 1926-1930
- Pituitary** adiposity (B. Myers), 774
(cystic?) tumour (F. Parkes Weber), 1836
gland, experimental removal of, results of, 1647
relations of, to tuberal centres, 1655
tumours in relation to epilepsy, 857
- Pituitrin**, normal variability of action of on contractile power of cæcum and colon (E. C. Williams), 1273
- Pityriasis** lichenoides et varioliformis acuta (A. M. H. Gray), 341
simplex, effects of light on, 24
versicolor, effects of light on, 24, 25
- Planorbis guadeloupensis*, infestation with *Schistosoma mansoni*, 1511
olivaceus, geographical distribution of, 1511
infestation with *Schistosoma mansoni*, 1511
- Plant** and animal tissues, features common to, 1509
- Plants**, crown gall in, in reference to comparisons with cancer (W. Robinson), 1507-1510
experimental production of, 1508
features of, 1508
virus diseases in, recent work on (J. Henderson Smith), 825-902
- Plasmochin**, action of on gametocytes of malaria, 271
in malaria (P. Manson Bahr), 919-925
and plasmochin compound, cases treated with, 922
and quinine (plasmochin compound) in treatment of malaria, 925
chemical formula of, 920
cyanosis produced by, considerations of, 924
dosage considerations, 921-922
effects of over-dosage, 921
- Plasmodium falciparum*, 267
case of, counts of male and female gametocytes in, 268
malariae, 267
vivax, 267. See also under *Malaria*
- Pleura**, tumours of, 152
- Plimmer**, R. H. A.—Discussion on rheumatoid arthritis, 1730
- Pliny**, on age of horses, 86
- Pneumectomy** by cautery in bronchiectasis, 734
- Pneumomycosis**, treatment, 731
- Pneumonia** and bronchitis, death-rates from, 1897-1915, 1065
yearly number of recorded fogs in relation to (Manchester) (1916-1925), 1069
death-rates from (1922-1925), 1070
1911-1925, in relation to temperature, 1066
in cities and rural districts in America (1911-1917), 1070
in first quarter of each year 1912-1925, with corresponding temperatures, 1067
in Northern, Midland and Southern counties of England and Wales, 1911-1914 and 1921-1925, 1068
incidence of (W. St. C. McClure), 1065-1073
accommodation per individual of persons living in infected houses, 1072
conclusions regarding, 1073
distribution of population in relation to, 1070, 1071
in relation to fogs, in Manchester, 1068
- Pneumonia** and bronchitis, light tests and ultra-violet rays in relation to, 1069
primary, acute, and acute influenzal pneumonia, hospital accommodation required for, 206
- Pneumo radiograms**, localization of subdural blood-cyst in right frontal region by, 1837
- Pneumothorax**, artificial, air embolism following, venesection for, 1551
value of, in diagnosis of intrathoracic new growths, 179
- Poisoning**, acute, treated by blood-letting, 1554
by irritant gases, venesection for, 1554
- Pollomyelitis**, anterior, case of (W. Broadbent), 1823
commonest cause of crippling among school-children, 132
- Polycythæmia**, blood-letting in treatment of, 1555, 1556, 1572
hæmaturia associated with, 1294
- Polypi**, fibroid, of rectum and colon, 252
nasal, relation of, to inflammation of accessory sinuses of nose (T. B. Layton), 1745-1748
- Polypnœa**, lesions of tuber cinereum in relation to, 1653
- Polyposis** of colon following ulcerative colitis, 372
- Polypus**, nasal, containing brain tissue, 1756
of dental pulp, 1782
- Polyuria**, causation of, mechanism of, experiments regarding, 1648
following puncture of tuber cinereum, 1648
in migraine, 1107
permanent and transitory, lesions of tuber cinereum causing 1649
- Pontine** nerve cells, changes in, due to veronal, 1488
- Pork**, trichina infection of, 550
- Porphyria** cum gangrena et atrophia manuum, 19
sensitiveness to light in relation to, 19
- Portal** fissure, mass of glands in, as cause of failure to obtain shadow in cholecystography, 1225
- Portmann**, G.—The saccus endolymphaticus and an operation for draining, for relief of vertigo, 1862-1867
- Post-auricular** pain, persistent, case of (P. Franklin), 671
- Post-encephalitic** syndrome and psychogenic depression, diagnosis between, case for (M. Barkas), 632
- Potassium** iodide, treatment of leprosy with, 990
- Potato**, virus disease in, 900, 901
- Pott**, Percival.—On the treatment of lachrymal fistula (A. Freeland Fergus), 1692-1696
- Potter-Bucky** diaphragm, use of, for taking skiagram in cholecystography, 1205
- Powell**, L.—Case of mastoiditis with perisinus abscess and lateral sinus thrombosis presenting unusual features, 618
discussion on teaching of ether anaesthesia, 188
- Power**, Sir D'Arcy, K.B.E.—Presidential Address to Section of Comparative Medicine, 85
the place of the Tudor surgeons in English literature, 1075-1079
- Poynton**, F. J.—Case for diagnosis, 1587
of Fröblich's syndrome, 317
- Precipitin** test for hydatid disease, 711
- Pre-frontal** region, gunshot wound in. For consideration of surgical treatment of recent epilepsy (C. P. G. Wakeley and E. Mapother), 630

- Pregnancy**, ovarian, early case of (S. Gordon Luker), 868
 tubal, repeated, case of (E. Williams), 1661
 with ascites, case of (H. Briggs), 405
- Presbyopia**, treatment of, advances in, 73
- Prolapse** complicating colostomy, 1456
 treatment of, by vaginal plastic operation only, 118
- Proponal**, drug of barbituric acid group, 1480
- Prostate**, enlarged, recurrence of, after prostatectomy (Sir J. Thomson-Walker), 720
- Prostatectomy**, indication and execution of (H. Wildbolz), 1808-1813
 perineal, technique of, 1812-1813
 preparation of patient for, 1811
 recurrence of enlarged prostate after (S. G. MacDonald), 718, (Sir J. Thomson-Walker), 720
- Protein** shock in treatment of leprosy, 992
 injection of saline, containing dead bacteria, causing, 139
- Prurigo** of Besnier and Rasch in an adult (F. Parkes Weber), 557
- Pseudo-hermaphroditism**, case of (P. Turner), 191
- Pseudo-pterygium** (H. Neame), 1793
- Pseudo-tumour** cerebri, 58
- Psoriasis**, eruption caused by sunlight, 27
 of ear, 465
- Psychogenic** depression and the post-encephalitic syndrome, diagnosis between, case for (M. Barkas), 632
 origin of epilepsy, question of, discussed, 857
- Psychological** considerations in treatment of cancer of oesophagus, 241, 242
 methods of inhibition of conscious brain, 507
 value of light treatment in surgical tuberculosis, 812
- Psychopathological** development of a paranoid psychosis, 909
- Psychosis** associated with pressure from disc of bone replaced after trephining (M. Barkas), 630
 paranoid, psychopathological development of (R. D. Gillespie), 909
 recent, juvenile, tabes with optic atrophy and probably general paralysis (A. Randle and E. Mapother), 629
 showing recovery after relief of intracranial pressure of doubtful origin (M. Barkas), 631
- Pterygium**, pseudo- (H. Neame), 1793
- Ptosis** and chronic double external ophthalmoplegia as an isolated lesion (Rosa Ford), 1433
- Public** health, hospitals in relation to (G. F. Buchan), 205-214
 problems of, in relation to hospital accommodation, 208
 research in relation to the hospital, 214
 See also under *Hospital*.
- Puerperal** fever and puerperal pyrexia, hospital accommodation required for, 206
- Pugh**, Leslie P.—Microscopical appearances in encephalitis lethargica in dogs, 1364
- Pugh**, W. T. Gordon.—Discussion on treatment of pes cavus, 1124
 orthopaedics at a country children's hospital, 131-136
- Pulmonary** abscess, 736
 and cardiac affections, venesection in, 1550
 circulation, impairment of, death from, states threatening, in which venesection saves life, 1550
 impairment of, the capital indication for venesection, 1549
- Pulse**, rate of, variation by means of suggestion, 509
- Pulvertaft**, R. J. V.—Discussion on rheumatoid arthritis, 1732
- Purpura** hæmorrhagica, essential thrombocytopenic, a year after splenectomy, case of (B. Myers) 541
 relation of hæmaturia to, 1294
- Purves Stewart**, Sir J., K.C.M.G.—Case of subdural blood-cyst in right frontal region located by pneumo-radiogram, 1837
 clinical study of intracranial tumours and especially of some errors in their diagnosis, 57-64
 discussion on treatment of traumatic facial paralysis, 1136
- Pus-formation** in tuberculosis in captive wild animals, 200
- Putti** table, use of, in application of plaster in fracture of upper end of femur, 455
- Pyelogram** showing large calculus as area of lesser density in renal pelvis filled with sodium iodide solution (V. L. Cope), 717
- Pyelography**, value of, in diagnosis in urinary infections, cases illustrating, 288
- Pyelonephritis**, case of, kidneys obtained post-mortem from (E. Scott), 1821
- Pyloroplasty**, first performance of, 645
- Pylorus**, plastic operations on, first performance of, 645
- Pyorrhœa**, diminution of calcium content in, 234
 treatment by parathyroid tablets combined with calcium salts, 234
- Quadruplegia**, slow onset of, in dislocation of second cervical vertebra (J. S. R. Russell), 381
- Quinine** and plasmochin (plasmochin compound) in treatment of malaria, 925
 chemical formula of, 919
 idiosyncrasy, 926
 isolation of, from cinchona bark (1820), 919
- Quinophan** in treatment of gout, 260
- Radiography** of gall-bladder, discussion on, 1203-1226
- Radiology**, First International Congress of, in London in 1925, 37
 Institute of, formation of, 36
- Radium** and radio-active substances, use in treatment, progress in, 41
 and X-rays, tissues exposed to, growth of tumour in (S. Russ and G. M. Scott), 1603-1605
 treatment of intrathoracic growths by (R. Knox), 167-179
 endothelioma of anus apparently cured by, recent local recurrence after three years (W. Howarth), 1092
 in treatment of cancer of oesophagus, 242
 of extensive lupus of upper air passages (H. M. Wharry), 1402
 of mediastinum tumours, 161

- Radon** "seeds," action of, on tumour and liver cells of rat (S. Russ and G. M. Scott), 1605-1607
- Ramisection**, sympathetic, treatment of spastic paralysis by (N. D. Royle), 1799-1803
- Randle, A. and Mapother, E.**—Juvenile tabes with optic atrophy and recent psychosis, probably general paralysis, 629
- uterine tumour of doubtful nature with ideas of reference and thought reading, 629
- Rankin, N.**—Furunculosis (right-ear) followed by necrosis of anterior bony wall of external auditory canal, 1447
- large extradural abscess with collapse of lateral sinus and compression of left lobe of cerebellum, 1447
- Rasch, C.**—Some historical and clinical remarks on the effect of light on the skin and skin diseases, 11-30
- Rats**, laboratory and wild, faeces of, oöcysts of a coccidium in (M. A. Azim), 701-704
- Ray, M. B.**—Discussion on climacteric arthritis, 525
- Raynalde's** Byrth of Mankynde (1545), copper engravings in, 53
- nine figures mentioned but not issued with, 53, 54
- the "declaratyon" in, 53, 54
- two figures of male abdomen in, 54
- woodcut copies of the copper plates in the 1565 edition of, 54
- Raynaud's** disease, association of migraine with, 1101
- Rayner, H. H.**—Discussion on diathermy, 762
- Rea, R. Lindsay.**—Angioma of retina of both eyes, 68
- Discussion on value of modern methods in treatment of ocular syphilis, 967
- v. Recklinghausen's** disease, case of, shown in 1905, as an early pigmentary "Forme Fruste" (F. Parkes Weber), 92
- incomplete form of (J. Collier), 381
- without tumour formation, case of (A. M. H. Gray), 1340
- Recognition**, striving for, the feeling of inferiority and (A. Adler), 1881-1886
- Rectum** and colon, carcinoma of, in relation to urinary infections, 295
- tumours of, innocent (J. P. Lockhart-Mumery), 250-254
- congenital, 250
- carcinoid, 254
- carcinoma of, colostomy in, 1452
- injuries of, colostomy in, 1453
- stricture of, fibrous, colostomy in, 1452
- (?) **Rectus** paralysis, bilateral, or absence of the muscle (Ida C. Mann), 1687
- Redding, J. Magnus.**—Discussion on treatment and results of fractures of upper end of femur in adults, 457
- Reflex** action in hypnosis and suggestion, 503
- principles of one common path, 504, 505
- Reflexes**, acquired, 504
- concerned in micturition, 726
- conditioned, tests employed in experiments on, 504
- unconditioned and conditioned, 503
- Refraction** of eye, necessity for cycloplegics in estimating, 72
- Relapsing** fever, organism of, general paralysis treated by (W. L. Dawson), 635; (W. Moody), 633
- Renal** calculi, Paget's disease with (C. P. G. Wakeley), 544
- carbuncle (W. Girling Ball), 716
- dwarfism (W. G. Wyllie), 326
- Resonance** theory of hearing or only a resonance hypothesis? question of (G. Wilkinson), 623-626
- Respiration**, views of Erasistratus on, 828
- Retina**, angioid streaks of (O. G. Morgan), 881
- hemorrhage in, progress in knowledge concerning, 74
- hemoflux in, term suggested, 74
- massive exudation in, in a boy (D. C. L. Vey), 428
- of both eyes, angioma of (R. Lindsay Rea), 68
- Retinal** hemorrhage, definition of, 607
- petechiasis a clinical entity of auto-intoxication (H. M. McCrea), 607-614
- bacteriology of, 609
- clinical history in, 609
- definition of, 607
- illustrated cases, 611-614
- method of production of, 607, 608
- pathology of, 608
- site of "splashes" in, 609
- sites of focal infections in, 609
- treatment of, 609
- thrombosis, definition of, 607
- Retinitis**, electric, case of (A. H. Thompson), 428
- pigmentosa, early (H. Neame), 1793
- punctata albens (C. Walker), 1688
- Reynell, W. R.**—Discussion on migraine, 1109
- Rheobase**, double, 105
- single, 105
- Rheumatic** diseases, classification of, 525
- fever and rheumatic heart disease, hospital accommodation required for, 209
- origin, infantilis of, case of (G. L. Lyon Smith), 1822
- Rheumatoid** arthritis: is it a deficiency disease? (M. J. Rowlands), 1711-1728, 1737
- surgical treatment of, 1466
- see also *Arthritis*.
- Richards, E. H., and Williamson, G. S.**—Preliminary study of middle-ear deafness, 1843-1848
- Richards, N. O.**—Case of acute lymphatic leukaemia, 1317
- Rickets**, aerodynia and (S. Wyard), 322
- case of (H. Chodak Gregory), 529
- value of light treatment in, 1518, 1527
- Riddoch, G.**—Discussion on epilepsy, 864
- Ridout, C. A. S.**—Case of chronic diffuse tuberculosis of nose, pharynx, epiglottis and larynx, 594
- discussion on progressive middle-ear deafness, 1857
- on treatment of chronic non-tuberculous infections of lungs, 742
- epithelioma of left tonsil, left anterior pillar of fauces, tongue and lower jaw, 221
- laryngeal, case for diagnosis, 1397
- total removal of tongue by diathermy for carcinoma, 221
- Riehl's** disease (war melanosis), 21
- Ringworm** hairs on scalp, detection of, by their fluorescence under ultra-violet light, 1200
- in London elementary schools, statistics of, 40

- Ringworm** of scalp in adult (H. MacCormac), 1058
treated by thallium acetate epilation (G. B. Dowling), 1055
treatment of, by thallium acetate (J. H. T. Davies), 1819
- Rivett, L. C.**—Discussion on radical abdominal operation for carcinoma of cervix, 129
uterus and vagina with placenta *in situ*, showing extensive carcinoma of cervix, 1657
- Roberts, J. E. H.**—Discussion on diagnosis and treatment of intrathoracic new growths, 154, 183
on treatment of chronic non-tuberculous infections of lung, 743

on physico-chemical action of interrupted currents, 114
- Robinson, W.**—Some features of crown gall in plants in reference to comparisons with cancer, 1507-1510
- Rodent** ulcer metastasis (E. B. Barnes), 621
treatment by diathermy, 765
- Rogers, Sir Leonard, F.R.S.**—Discussion on treatment of leprosy, 1021
- Rolleston, Sir Humphry, Bt., K.C.B.**—Discussion on light treatment in surgical tuberculosis, 813
- Rolleston, J. D.**—Discussion on immunization against certain infectious diseases, 51
on osteomyelitis of upper jaw in scarlet fever, 1432
prevention of scarlatinal nephritis, 1407
on prophylaxis of measles, 1617
on serum treatment of scarlet fever, 1179
on the hospital in relation to the public health, 214
striae patellares following typhoid fever, 319
the Section for Study of Diseases in Children and its work (1908-1926), 1575-1581
trichotillomania in typhoid fever, 1187
- Röntgen** Society, foundation of (1897), 35
- Rosacea**, effects of light on, 25
- Rose, F.**—Foreign body removed from right bronchus, 591
- Ross, J. P.**—Discussion on cholecystography, 1222-1225
on treatment of gangrene of extremities, 491
- Ross, T. A., and Gillespie, R. D.**—Progression and regression in two homosexuals, 903-917
- Rotation** tests in optic nystagmus, 1409, 1412
- Roth, Paul B.**—Whitman's reconstruction operation for ununited fracture of neck of femur, 889
- Rowden, L. A.**—Discussion on cholecystography, 1221
- Rowlands, M. J.**—Rheumatoid arthritis: is it a deficiency disease? 1711-1728, 1737
- Rowlands, R. P., O.B.E.**—Discussion on colostomy, 1459
on diverticulitis, 692
on pathogenesis of gastric and duodenal ulcer, 650
- Rowntree, C. W.**—Solitary diverticulum of sigmoid, 697
- Roxburgh, A. C.**—Case of permanent freckles treated with pure carbolic acid, 352
demonstration of the detection of ringworm hairs on scalp by their fluorescence under ultra-violet light, 1200
discussion on uses and limitations of ultra-violet light therapy, 1529
- Royal Naval Hospital, Haslar**, statistics relating to abdominal operations at, 306
- Royal Navy**, abdominal hernia in (H. E. R. Stephens), 493
conditions of living in, changes during last forty years, 1159
factors influencing metabolism during three periods, 1161
dental staff of, statistics, 1166
diet and disease in (C. H. Dawe), 1159-1167
incidence of malignant disease in, on the increase, 1167
post-operative hernia in, 494
rates of various diseases in, at various stations, 1162, 1163
sickness rates in, in 1882 and 1923 compared, 1160
for appendicitis, gastric ulcer and duodenal ulcer, 1163
- Royle, N. D.**—Treatment of spastic paralysis by sympathetic ramiscation, 1799-1803
- Russ, S., and Scott, G. M.**—Action of radon "seeds" on tumour and liver cells of rats, 1605-1607
growth of tumour in tissues exposed to X-rays and radium, 1603-1605
- Russell, J. S. R.**—Dislocation of second cervical vertebra with slow onset of quadriplegia, 381
- Ryland, A.**—Discussion on dermatitis of external meatus, 470
- Ryle, J. A.**—Discussion on diagnosis and treatment of colitis, 377
on migraine, 1108
- Saccus** endolymphaticus and an operation for draining for the relief of vertigo (G. Portmann), 1862-1867
site of, formation of circumscribed interaural abscess at (Jobson Horne), 1868-1871
- Sacral** dorsal roots, lesions of, affections of mic-turition due to, 725
- Sacrococcygeal** chordoma, 254
- Sacro-iliac** joints, chronic arthritis of, surgical treatment of, 1473
- St. Bartholomew's Hospital**—Cholecystography at, table of results, 1224
- St. Thomas's Hospital**, cases of tuberculous peritonitis, statistics of, 660
- Saline**, containing dead bacteria, injection of, followed by protein shock, 139
injections of, stimulating healing of skin lesions, 139
- Saliva**, incidence of *Streptococcus mutans* and *Bacillus acidophilus* in, 876
- Salpingitis** in relation to urinary infections, 296
illustrative cases, 296, 297
- Salvarsan** fever, 992
- Sandflies**, prevalence of, in relation to Service architecture in subtropical countries, 943
- Saner, F. D.**—Abdominal tumour, 194
case of gastro-enterostomy, 1044

- Sanocrysin**, pulmonary tuberculosis treated with, cases of (L. S. T. Burrell), 1048
treatment of tuberculosis, immuno-biological reactions under, 795, 796
- Sarcoid**, case of (H. W. Barber), 1051
- Sarcoma**, embryonic, of kidney (E. G. Slesinger), 719
in cricoid region (G. W. Dawson), 593, 1096
of mediastinum, 151
of orbit, spindle-celled, 879
of right breast with secondary growths in chest, X-ray appearances of, 178
of tonsil treated by X-ray therapy and excision (C. G. Carey), 1772
primary, of lung or mediastinum, treatment of, 151
with fibromyomata of uterus (S. Gordon Luker), 867
- Sarcomatosis cutis** (type Perrin) (E. G. G. Little), 566
- Savatard, L.**—Ichthyosis and cancer of skin, with special reference to mule-spinner's cancer, 1589-1595
- Savill, Agnes**.—Discussion on migraine 1109
- Sawdon, F. R.**—Discussion on climacteric arthritis, 526
- Scales, F. Shillington**.—Report on X-ray examination of Cambridge Guanche mummy, 840
- Scalp**, lupus erythematosus of, associated with scars of old papulo-necrotic tuberculide lesions and of erythema induratum on arms and legs (H. W. Barber), 1053
ringworm hairs on, detection of by their fluorescence under ultra-violet light (A. C. Roxburgh), 1200
ringworm of, in adult (H. MacCormac), 1058
treated by thallium acetate epilation (G. B. Dowling), 1055
X-ray treatment of, first case treated in 1902, 39
- Scaphoid** tumour, case for diagnosis (A. R. Jones), 240
- Scapula**, "winged" (T. T. Higgins), 321
- Scapular** artery, right posterior, cirroid aneurysm of (C. P. G. Wakeley), 780
- Scarlatinal** nephritis, prevention of (H. Carter and A. A. Osman), 1405-1407
- Scarlet** fever, death rates from (1922-25), 1070
Dick test in, 46
haemolytic streptococcus as causal agent, 47, 48
immunization against, 46, 51
in cows, in relation to milk, question considered, 786
in United States of America, mortality statistics, 46, 1172
mortality rates for, 1170, 1171
osteomyelitis of upper jaw in (T. B. Layton), 1430-1432
of jaws following, 1534
Schultz-Charlton reaction in, 47
serum treatment of, discussion on, 1171-1185
illustrative cases, 1172, 1173
questions of specificity, dosage and standardization discussed, 1176, 1177
reports of experiences at Edinburgh, Birmingham and Liverpool, 1175, 1176
virulent, immunization against, necessary, 51
- Schaumann's** benign lymphogranuloma (H. W. Barber), 1344
- Schelling, C.**—Discussion on anaesthetics in dental operations, 1303
- Schick** reactors in diphtheria, treatment with anatoxin, experiments described, 45, 46
test in diphtheria, early experiences with, 43

left macular chorio-retinitis, with (?) infiltration of Cloquet's canal, 1435
unilateral buphthalmos, 1434
- Scott, Sydney**.—Left temporo-sphenoidal abscess, 1151
left temporo-sphenoidal abscess opened 16 days after the onset of acute otitis media; outstanding symptom auditory amnesia (name-amnesia), 1155
right cerebellar abscess, 1152
two cases of cerebellar abscess, previously reported, 1155
- Sebaceous** glands on light-exposed part of chest, hypertrophy of, 22
horn (E. Pearce Gould), 328

- Seborrhœa** or seborrhœic state, aetiology of, diet in, 1423
 heredity in, 1423
 influence of sexual involution on, 1424
 insufficient intake of fluids in, 1424
 an index of faulty metabolism, 1423
 sicca, effects of light on, 24
- Seborrhœide**, rare case of (G. B. Dowling), 1828
- Semon**, H. C.—Cases treated with steam cautery, 798
 disfigurement from tar impregnation, 568
 lupus erythematosus treated by krysolgan, 566, 1339
- Senile** light alteration of the skin, 23
- Sensation** for pin-pricks, testing for, 1415
 for touch, testing for, 1415
- Sensory** nerves, therapeutic action of interrupted currents on, 110
- Septicæmia** in lateral sinus thrombosis without otorrhœa: subsequent tonsillectomy; acute nephritis; recovery (T. H. Just), 620
- Sequeira**, J. H.—Description of new skin disease produced by light (permanent freckles), 14
 discussion on treatment of leprosy, 992
 on uses and limitations of ultra-light therapy, 1526
 lymphoblastic erythrodermia, 559
 ulcerating granuloma, 346
- Sera**, treatment of leprosy with, 990
- Sero-attenuation** in prophylaxis of measles, 1612
- Serological** tests for hydatid disease (Isa Hiles), 708-713
- Serratus** magnus paralysis, two cases of (C. Worster-Drought), 330
- Serum**, anti-dysenteric, in treatment of colitis, 373
 prophylaxis of measles, 1610
 treatment of scarlet fever, discussion on, 1171-1185
- Service** architecture, and the requirements of accommodation in tropical and subtropical climates, with special reference to Egypt and Palestine (P. M. Keane), 939-948
 building tradition of native inhabitants in relation to, 940
 fly-proof question considered, 947
 in relation to prevalence of mosquitoes and sandflies, 943
 in relation to ventilation, 943
 interior construction, 946
 lay out of, 941
 siting in, 941
 structure, 945
 wall construction in, 944
- Service** medical work, the wider aspect of (H. Cooper), 147-150
 subjects suggested as suitable for inter-Section discussion, 148
- Sexual** precocity, with infantile paralysis (W. H. Ogilvie), 330
- "Shagreen"** skin in mulespinners, 1590
- Sharp**, N. A. Dyce.—Onchocerciasis, 927-936

- Shaw**, T. R.—Discussion on diet and disease in on Service architecture in tropical and subtropical countries, 948
- Shaw**, W. Fletcher.—Discussion on radical abdominal operation for carcinoma of cervix, 129
- Sheep**, hydatid in, abnormal forms of, 279
- Sheep-pox**, vaccine lymph produced from, successful use of, 587
- Sheldon**, J. H.—Specimens from case of multiple bony lesions, shown November, 1925, 1
- Sheldon**, W. P. H.—Three cases of bronchiectasis, 79
- Sherrington**, Sir C. S., F.R.S.—Researches on reflex action (quoted), 504, 505
- Shipway**, F. E.—Discussion on anaesthetics in dental operations, 1303
- Shires**, B.—Discussion on diverticulitis, 686
- Shock** therapy and light therapy, 813, 814
- Shoulder-joint**, osteo-arthritis of, surgical treatment of, 1473
- Shoulder**, one, early angioma serpiginosum confined to (F. Parkes Weber), 1827
 right, deformity of, with associated deformities of ribs and cervical spine (W. E. Tanner), 194
- Sierra Leone**, vector of onchocerciasis in, 936
- Sigaud**, definition of disease, quoted, 526
- Sigmoid** colon, diverticulum of, solitary (C. W. Rowntree), 697
- Sigmoido-diverticulosis**, 690
- Sigmoidoscope**, use of, in examination of diverticulitis, 683
 value of, in examination for colitis, 370
- Simpson**, Graham.—Angeioma of kidney, 728-730
- Simulium damnosum*, vector of onchocerciasis in Sierra Leone, 936
- Sinusitis**, case of (T. B. Layton), 1621
 frontal, acute, with abscess of forehead (H. Ki-eh), 1640
 associated with orbital abscess (M. Vlasto), 597
 case of (J. A. Gibb), 1776
 varieties of, classification of, 1746
 with complications: case of: phlegmon of orbit (J. A. Gibb), 1776
- Sinusoidal** bath, full-length, effects of, 114
- Skeletal** deformities in association with bilateral ulnar neuritis: hypertelorism (C. P. Symonds), 1241
- Skin** and mucous membranes, coincident infections of, 1422
 diseases of, relationship of dental infection to (H. W. Barber), 1421-1430
 growth of catarrhal organisms on, factors predisposing to, 1423
 infections of, secondary effects upon organs of body, 1425
 result of bacterial embolism in dermic or subcutaneous vessels, 1429
 and skin diseases, effect of light on, historical and clinical remarks on (C. Rasch), 11-30
 as primary focus of infection, 1426
 cancer of, ichthyosis and, with special reference to mulespinner's cancer (L. Savatard), 1589-1595
 treatment by diathermy, 762
 colloid degeneration of, produced by light, 21, 22
 "creeping disease" of, 549
 diseases of, anaphylactic reactions due to systemic sensitization to bacterial protein, 1428
 caused by oral sepsis, 1427

- Skin** and mucous membranes, diseases of, due to epidermis becoming sensitized to toxins absorbed from mouth and teeth, 1428
 due to lowered resistance caused by oral sepsis, 1428
 flaps, pedicled, in treatment of syndactyly, use of (C. J. Marshall), 1315
 grafts for fistula-in-ano (W. B. Gabriel), 1278
 infection by *Schistosoma mansoni* through, 1513
 infection (? tuberculous) of, following electrolysis for removal of hair (E. G. G. Little), 102
 lesions, healing of, stimulation by saline injections, 139
 senile, light alteration of, 23
Skull, necrosis of (E. C. Hughes), 775
 tumour of; Jacksonian epilepsy (C. F. T. East), 2
Sleep, hypnotic, different degrees of, 507
Slesinger, E. G., O.B.E.—Arterio-venous aneurysm with bullet retained in heart muscle, 1326
 carcinoma of thyroid in boy aged 12, 192
 discussion on treatment of gangrene of extremities, 490
 embryonic sarcoma of kidney, 719
Slit-lamp, improved (M. S. Mayon), 1113
 value of, in ophthalmology, 77
Small-pox, rash of, effects of light on, 24
Smith, G. L. Lyon—Case of infantilism of rheumatic origin, 1822
Smith, J. Henderson.—Recent work on virus diseases in plants, 895-902
Smith, R. W. Innes.—A letter of Fothergill on malignant sore throat, human and bovine (1747), 1380
Snails, of Surinam, output of cercariae, 1512
 penetration by miracidia, 1511
Sodium morrhuate, intramuscular injections of, two cases of Boeck's sarcoid (benign lymphogranuloma of Schaumann) treated with (H. W. Barber), 347
 tetra-iodophenolphthalein, dose of, in cholecystography, 1223
Somnifene, 1480
 poisoning by, index to, 1502
Soneryl, 1480
South African War and Great War, 1914-1918, expenditure of State on pensions, compared, 1706
Souttar, H. S., C.B.E.—Demonstration of steam cautery, and cases treated thereby, 797
 discussion on treatment of oesophagus, by intubation method, 247
 on treatment of non-tuberculous infection of lung, 744
Spa treatment in breakdowns of middle life, 1035
Spain, Ivan S.—Discussion on anaesthetics in dental operations, 1298
Sparganium mansoni, 549
Sparks, J. V.—Discussion on cholecystography, 1220
Spasm in diverticulitis, 670
Spastic paralysis associated with scoliosis, two cases of (R. C. Elmslie), 1697
 treatment of, by sympathetic ramisection (N. D. Royle), 1799-1803
 "Speculum Matricis," Wolveridge's (1671) with notes on two MS. copies in the Society's library (H. R. Spencer), 1080-1086
Speculum, oesophageal, with distal and proximal illumination (W. Howarth), 1400
Speech after cleft palate operations, statistics, 1894, *et seq.*
 anatomy of, in relation to operative treatment of cleft palate, 1939
 cleft palate, causes of, 1939
 training after operative treatment of cleft palate, 1907, 1932
Spencer, H. R.—Wolveridge's "Speculum Matricis" (1671), with notes on two MS. copies in the Society's library, 1080-1086
Spencer, W. G.—Discussion on blood-letting, 1547-1556, 1573
 eighteen letters written by Edward Jenner to Alexander Marcet between the years 1803-1814, presented to the library of the Royal Society of Medicine by Dr. William Pasteur, 587-590
 review of the Proceedings of the Section of the History of Medicine, 366
Sphenoidal sinus origin, meningitis of (M. Vlasto), 1763-1765
Spina bifida, lateral, case of (M. Fitzmaurice-Kelly), 1823
Spinal accessory facial anastomosis for facial palsy during acute destruction of labyrinth (C. Gill-Carey), 1138
 caries, mid-dorsal, application of celluloid and duralumin jacket for, 134, 135
 cord, combined degeneration of (M. A. Cassidy), 1323
Spine, chronic arthritis of, surgical treatment of, 1473
 cervical, congenital deformity or old injury to, recent onset of paraplegia (W. J. Adie), 1838
 tuberculous disease of (D. McCrae Aitken), 239
Spirochæta bronchialis, ætiological relationship, 707
buccalis, pathogenic importance, an open question, 707
vincenti, pathological processes with which associated, 707
 tissue invading organism, 707
Spirochætic infection and necrosis and perforation of ileum (W. Broughton-Alcock), 704
 commentary and discussion on, 705
 examination of specimens (post-mortem), 705
Spirohemata (spirochætes), disease-producing, classified in report of Hamilton-Rice Expedition, 706, 708
Splenectomy for essential thrombocytopenic purpura hemorrhagica (B. Myers), 541, 1190
Splenomegaly, case of, for diagnosis (K. Stone), 1191
 familial, two cases of (R. Hutchison), 321
Splint drill, Thomas's (E. H. Cowell), 493
Sprawson, E.—Further investigation of the pathology of dentigerous cysts with a new treatment based thereon, 1781-1792
Sprengel's shoulder and abnormal bone formation of seventh cervical vertebra, radicular paresis of right hand associated with (F. E. Saxby Willis and W. H. Ogilvie), 540
Spriggs, E. L.—Discussion on diverticulitis, 665-681, 696

- Spur**, retraction of, complicating colostomy, 1456
- Staphylococcal** infections of outer ear, 464
- Status** epilepticus, blood-letting in, 1552
- Steam** cautery, cases treated with (H. C. Semon), 798
 demonstration of, and cases treated thereby (H. S. Souttar), 797
- Steel**, small piece of, lying suspended in the vitreous, case of (J. W. T. Thomas), 881
- Steindler** operation in treatment of pes cavus, 1122, 1129, 1130
- Stellate** reticulum of enamel organ in human deciduous teeth, 416
 functions of, 425
- Stenosis** complicating colostomy, 1455
- Stenson's** duct, papilloma of, followed by great enlargement of parotid gland; case for diagnosis (H. N. Barnett), 1773
- Stephens**, H. E. R.—Abdominal hernia in the Royal Navy, 493-499
 discussion on peace-time military surgery, 306
- Stercolith**, formation of, in diverticulitis, 677
- Sterility**, myomectomy undertaken in hope of curing, results of (J. B. Banister), 1669
- Sterno-mastoid** muscles, bilateral contracture of (S. L. Higgs), 1701
- Steward**, F. J.—Discussion on diathermy, 758, 769
 on treatment of cancer of the œsophagus, 241-246
- Stewart**, D.—Some aspects of the innervation of the teeth, 1675-1686
- Stewart**, T. Grainger.—Cases from a family affected with Leber's disease, 382
 discussion on epilepsy, 865
- Stierlin's** sign in intestinal tuberculosis, 663
- Still's** disease (?) two cases of (W. S. C. Copeman), 1305-1310
- Stolkind**, E.—Discussion on hypnotic drugs of barbituric acid and sulphonal groups, 1506
 on treatment of non tuberculous infection of lungs, 751
- Stomach**, dilatation of, in rats fed on deficiency diet, 1715
 normal, of rat, compared with that of rat fed on partial deficiency diet, 1718, 1722-1725
- Stone**, Kenneth.—Case of splenomegaly for diagnosis, 1191
- Stools**, character of, in colitis, 367
 prevention from becoming hard during convalescence from colitis, 374
- Strachan**, C. G.—Discussion on light treatment in surgical tuberculosis, 814
- Streptococcal** infections, excess of sugar in diet giving rise to, 1544
 infections of outer ear, 462
- Streptococci** of cow mastitis, 783
 selective affinity of, in relation to causation of gastric and duodenal ulcer, 641, 642
- Streptococcus**, hæmolytic, as causal agent in scarlet fever, 47, 48
mutans and *Bacillus acidophilus*, comparative bacteriology of, 874
 and *Bacillus acidophilus* in saliva, incidence of, 876
 in carious teeth, 873
 vaccine, autogenous, striking result of one injection of, chart showing (A. J. Hutchison), 1622
- Striae** patellares following typhoid fever (J. D. Rolleston), 319
- Styloid** process, elongated, and stylo-hyoid arch in animals: epidiastroscope demonstration (D. Guthrie), 1396
 projecting into left tonsil: skiagram showing (H. B. Tawse), 1395
- Subclavian** artery, thrombosis of: cervical rib, contralateral hemiplegia of sudden onset, probably embolic (C. P. Symonds), 1244
- Subglottic** stricture of trachea, case of (H. Tilley), 223
- Submaxillary** gland, tumour of (W. H. Jewell), 601
- Suffocation**, feeling of, by patients during anaesthesia for dental operations, 1299, 1303
- Sugar**, excess of, in diet promoting streptococcal infections, 1544
 tolerance, influence of anaesthetics on, 311
- Suggestion** and hypnosis, physiological basis of (S. R. Wilson), 503-509
 different degrees of, 507
 variation of pulse rate by means of, 509
- Sulphonal** and barbituric groups of hypnotic drugs, clinical and pathological effects of, 1479-1506
 group of drugs, 1481
 acute poisoning by, 1483
 clinical action of, 1481
 conclusions regarding, 1486
 cumulative action of, 1483
 drug addiction to, 1483
 effects on central nervous system, 1492
 effect on vascular system, 1491
 fatal dose of, 1483
 hypnotic action of, 1491
 poison regulations regarding, 1486
 poisoning by, index to cases of, 1499-1502
 symptoms of, 1494
 toxicology, 1494
 post mortem changes in, 1484
 references, 1495, 1499
 site of action of, 1490
 statistics of fatal cases (1905-1925), 1485
 subacute or chronic poisoning by, 1483
 historical development of, 1496
- Suprascapular** artery, right, cirroid aneurysm of (C. P. G. Wakeley), 545
- Supratonsillar** fossa, right, parotid tumour probably arising in, specimen with microscopic slide (C. G. Russ Wood), 592
- Surgeons** of Tudor period, place of, in English literature (Sir D'Arcy Power), 1075-1079
- Surgery**, high-frequency currents in, methods of employing, 753
 views of Erasistratus on, 831
- Surgical** tuberculosis. See under *Tuberculosis*
- Surinam**, snails of, penetration by miracidia, 1511
- Sutherland**, G. A.—Discussion on epilepsy, 864
 on retinal petechiasis, 614
- Switzerland**, high incidence of tuberculosis in, cause of, 813
- Symbiotic** fermentation phenomenon and its use in the differentiation of certain micro-organisms and the identification of certain carbon compounds, further observations on (A. Castellani), 1268-1272
 explanation of, 1269

- Syme, W. S.**—Discussion on progressive middle-ear deafness, 1857
notes of three bronchoscopic cases, 1766-1768
- Symonds, C. P.**—Bilateral ulnar neuritis in association with skeletal deformities, hypertelorism, 1241
cases for diagnosis, 883, 1246
case of syringomyelia with hydrocephalus and coarse tremor (fibrillation) of right hand, 1241
cervical rib, thrombosis of subclavian artery, contralateral hemiplegia of sudden onset, probably embolic, 1244
discussion on migraine, 1097-1104
on treatment of traumatic facial paralysis, 1137
some points in the diagnosis and localization of cerebral abscess, 1139-1145
syphilitic encephalitis, 384
syringomyelia with Charcot's shoulder, 1013
- Symonds, Sir Charters, K.B.E.**—Discussion on treatment and results of fractures of upper end of femur in adults, 454
- Symonds' tubes** in treatment of cancer of oesophagus, 241
- Syndactyly**, use of pedicled skin flaps in (C. J. Marshall), 1315
- Sympathectomy**, peri-arterial, in treatment of gangrene, value of, 481
- Sympathetic nerves**, effects seen after cutting, 1799
- Syphilis** and trypanosomiasis, close analogy between, 979
cardio-vascular, X-ray study of (F. M. Groedel), 1061-1064
congenital, case of (H. Chodak Gregory), 529
lichen planus with unusual manifestations in growth wrongly diagnosed as, 1543
minor manifestations of, three cases of (W. G. Wyllie), 530
oral manifestations of, 1534
late, adventitious cerebral, value of modern methods of treatment of, 957
parenchymatous disease within main mass of the central nervous system, value of modern methods of treatment in, 956
nervous, paracentral or tabetic type, value of modern methods of treatment in, 957
ocular, late stages of, value of recent methods of treatment in, discussion on, 951-970
of external ear, 467
- Syphilitic origin** of macular atrophy, case of (G. B. Dowling), 91
ulceration of palate, Wassermann reaction resistant in, 1542
- Syringomyelia**, case of (F. M. R. Walshe), 1246
with Charcot's shoulder (C. P. Symonds), 1043
with hydrocephalus and coarse tremor (fibrillation) of right hand, case of (C. P. Symonds), 1241
with somewhat acromegaloïd features, case of (F. Parkes Weber and F. E. Loewy), 7
- Tabes**, juvenile, with optic atrophy and recent psychosis, probably general paralysis (A. Randle and E. Mapother), 629
with rotatory nystagmus (W. Harris), 385
primary optic atrophy in, value of modern methods of treatment in, 954, 955
- Tabo-paresis**, congenital, treated with malaria (W. G. Wyllie), 325
- Tenia echinococcus**, 272
ovis, 549
saginata, 552
in man, 548
solium, 552
in man, 548
intermediate host of, 549
- Talipes arcuatus**, 1120
plantaris, 1120
- Tallerman, K. H.**—Acholuric family jaundice, 1582
- Tanner, W. E.**—Deformity of right shoulder, with associated deformities of ribs and cervical spine, 194
- Tar impregnation**, disfigurement from (H. C. Semon), 568
- Taraktogenos Kurzii**, chaulmoogra oil derived from, 991
- Tarsal joints**, chronic arthritis of, surgical treatment of, 1472
- Tarsectomy**, cuneiform, in treatment of severe pes cavus, 1122
- Tawse, H. Bell.**—Acute frontal sinus suppuration; an unusual variation in the anatomy, 219
growth on palate, for diagnosis and treatment, 1394, 1631
report of Research Committee on, 1779
perforation of the palate (previously shown), 218
styloid process projecting into left tonsil; skiagram shown, 1395
- Teall, C. G.**—Discussion on diathermy, 766
- Teeth** as focus of infection in retinal petechiasis, 610
care of, importance in treatment of cancer of oesophagus, 248
carious, cultures from, results of, 876
technique of, 875
earliest trace of enamel knot in, 411
of enamel niche in, 412
of fenestration of deciduous tooth band, 415
of outer and inner enamel bands in, 412
of permanent tooth band in, 415
of tooth band and the lip furrow in, 411
enamel organs and tooth band of, observations on (C. A. Wakeford), 411-426
enamel organ in stellate reticulum of, 416
vascularity of, 424
origin of intercellular fluid in stellate reticulum, 422
development and eruption of, factors affecting, 1537
eruption of, influence of state of ductless glands on, 1543
fibres of Mummery in, 1675-1678
grinding of, 1539
human, deciduous, enamel strand and enamel navel in, 420
Hutchinsonian, typical features of, 1535
innervation of, some aspects of (D. Stewart), 1675-1686
manifestations of general diseases in, 1538
non-eruption of (H. D. Pickerill), 603-605
of continuous growth, innervation of, 1682
sensibility of, 1683
staining of, 1539
transplantation of, in eighteenth century dentistry, 362

- Telangiectases**, cirrhosis of liver, deformity of metacarpals (C. F. T. East), 2
familial, multiple (S. E. Dore), 1059
- Temperature** regulation, lesions of tuber cinereum in relation to, 1652, 1654
- Temporal** and zygomatic abscess in chronic middle-ear suppuration (A. Cheate), 628
bone, microscopical examination of specimen from case of otosclerosis, with blue sclerotics and fragilitas ossium, 472
fossa, abscess of, secondary to antro-meatal fistula (D. McKenzie), 1446
- Temporo-mandibular** joint, ankylosis of, arthroplasty for, three cases of (E. C. Hughes), 1042
- Temporo-sphenoidal** abscess (Sir J. Dundas-Grant), 1152
large, following injury: no localizing signs except homolateral papilloedema (E. B. Barnes), 1153
left (E. B. Barnes), 1154; (S. Scott), 1151
left-sided, with aphasia (W. M. Mollison), 1147
opened 16 days after onset of acute otitis media, outstanding symptom auditory amnesia (name amnesia) (S. Scott), 1155
right (Geo. Dawson), 1150
right-sided, without localizing signs (T. H. Just), 1148
- Tendo Achillis**, shortening of, in pes cavus, 1125
- Tendon** transference in treatment of pes cavus, 1123, 1127, 1130
- Teneriffe**, Guaanche mummy cave at, 854
- Ternidens diminutus*, 556
- Tetronal**, clinical action of, 1481
introduction of, 1497
- Thallium** (W. E. Dixon), 1196
acetate epilation, ringworm of scalp treated by (G. B. Dowling), 1055
in treatment of ringworm (J. H. T. Davies), 1819
- Therapeutics**, views of Erasistratus on, 831
- Thigh**, pigmentation of, with varicose veins and condition somewhat resembling so-called multiple idiopathic hæmorrhagic (pigment) sarcoma (Kaposi), (F. Parkes Weber), 94
- Thomas**, C. H.—Case for diagnosis, 1775
discussion on progressive middle-ear deafness, 1857
- Thomas**, J. W. Tudor.—Case of a small piece of steel lying suspended in the vitreous, 881
- Thomas's** splint, application in treatment of fractures of upper end of femur in adults, 456
drill (E. H. Cowell), 493
- Thompson**, A. H.—Case of electric retinitis, 428
- Thomson**, F. G.—Discussion on climacteric arthritis, 517
- Thomson**, J. Gordon.—Discussion on action of plasmochin in malaria, 925
on trypanosomiasis in man and animals, 980-982
- Thomson**, M. S.—Case for diagnosis, 1601
(?) lupus erythematosus, 1833
(?) lymphangioma, 352
cutis verticis gyrata, 353
leucoderma, 1833
discussion on ichthyosis and cancer of skin, 1596
- Thomson-Walker**, Sir J.—Discussion on treatment of malignant disease of bladder, 1288
recurrence of enlarged prostate after prostatic-tomy, 720
squamous carcinoma of renal pelvis associated with renal calculus, 720
- Thoracoplasty** in bronchiectasis, 734
- Thorax**, malignant disease of, with associated pleural effusion, radiation treatment of, 169
- Thrombocytopenic** purpura hæmorrhagica, essential, splenectomy for (B. Myers), 1190
- Thrombo-phlebitis** of bulb of jugular vein, cerebellar abscess secondary to (Sir J. Dundas-Grant), 1153
- Thujone**, as experimental epileptic convulsant, 864
- Thursfield**, H.—Discussion on diagnosis and treatment of colitis, 375
on diagnosis and treatment of intrathoracic new growths, 182, 183
on migraine, 1105
on treatment of non-tuberculous infection of lungs, 750
three cases of bronchiectasis, 79
- Thyroid**, carcinoma of, in boy aged 12 (E. G. Slesinger), 192
extract, administration of, effect on eruption of teeth, 1543
- Tidy**, H. Letheby.—Discussion on blood-letting, 1573
- Tilley**, H.—Case of subglottic stricture of trachea, 223
congenital bilateral occlusion of posterior choanæ, 1394
discussion on dermatitis of external meatus, 470
on progressive middle-ear deafness, 1856
- Tinnitus**, arterial bruit causing (L. G. Brown), 1448
on progressive middle-ear suppuration, 1845, 1849
- Tobacco** and tomato viruses, properties of, 897
- Todd**, Alan H.—Case of (?) periostitis of metatarsal, 1700
chronic painless synovitis of knee associated with Bazin's disease, 892
deformity and dislocation of hip-joint from acute epiphysitis in infancy, 893
discussion on treatment and results of fractures of upper end of femur in adults, 456
recurring outward subluxation of right carpo-metacarpal joint, 239
- Tomato** and tobacco viruses, properties of, 897
- Tongue** and tonsil, lymphosarcoma of, with glandular involvement (N. Patterson), 1095
carcinoma of, treatment by diathermy, 759, 760
hæmangioma of (A. E. M. Woolf), 327
hypertrophy of, in children, 1539
lesions on, confluent lichen nitidus with (H. W. Barber), 1052
lower jaw, left tonsil and left anterior pillar of fauces, epithelioma of (C. A. S. Ridout), 221
lymphangioma of (A. E. M. Woolf), 327
total removal of, by diathermy, for carcinoma (C. A. S. Ridout), 221
- Tonsil** (?), actinomycosis of (A. L. Macleod), 1622

- Tonsil** and tongue, lymphosarcoma of, with glandular involvement (N. Patterson), 1095
 epithelioma of, in a woman (N. Patterson), 221
 left, anterior pillar of fauces, tongue and lower jaw, epithelioma of (C. A. S. Ridout), 221
 styloid process projecting into; skiagram shown (H. B. Tawse), 1395
 sarcoma of, treated by X-ray therapy and excision (C. G. Carey) 1772
- Tonsils**, as focus of infection in retinal petechiasis, 610
 enlarged, treatment of, by fulguration, 756
 enucleation of, hæmostatic forceps used in (L. G. Brown), 1400
- Tonsillitis**, possibly tuberculous, case of (A. L. Macleod), 600
- Tooth** band and enamel organs of human deciduous teeth, observations on (C. A. Wakeford), 411-426
 microscopical appearances of, 413, 414
 deciduous, granuloma on, 1781
 with portion of cyst wall attached, 1784
 lymph supply of, association with that of surrounding alveolus, 231
 marginal lymph plexus in, 227
- Torres Straits**, mummy of an infant from, 850
- Torticollis**, case of (M. Fitzmaurice-Kelly), 1825
- Touch**, sensation for, testing of, 1415
- Tower** skull, case of (J. S. Collier), 1247
- Toxæmia** due to *Onchocerca volvulus*, 932
- Toxic** amblyopia, industrial (M. S. Mayou), 1112
- Trachea**, bifurcation of, papillomatous mass growing from, and obstructing both bronchi, removed through bronchoscope, 1767
 subglottic stricture of (H. Tilley), 223
- Tracheotomy** tube removed from woman, aged 58, after being present for 18 months (N. Patterson), 1629
- Travers**, E. A. O.—Discussion on treatment of leprosy, 1019
- Tremor**, coarse (fibrillation) of right hand in case of syringomyelia with hydrocephalus (C. P. Symonds), 1241
 crossed, case of (G. Holmes), 1841
- Trephining**, disc of bone replaced after, pressure from, psychosis associated with (M. Barkas), 630
- Trichinella spiralis*, 549, 550
- Trichinosis**, 550
- Trichocephalus trichiurus*, 553
- Trichotillomania** in typhoid fever (J. D. Rolleston), 1187
- Tricuspid** stenosis and incompetence; mitral stenosis; auricular fibrillation; varix of right external jugular vein (D. Hunter), 336
- Trional**, clinical action of, 1481
 introduction of, 1497
- Tropical** and subtropical countries, Service architecture and the requirements of accommodation in, with special reference to Egypt and Palestine (P. M. Keane), 939-943
- Trotter**, G. Clark.—Discussion on incidence of pneumonia, 1074
 on prophylaxis of measles, 1619
 on the hospital in relation to public health, 215
- Trypanosoma brucei*, 972
congolense, 972
equiperdum, 973
